Some of the ROBLINS of the Quinte Area

Earliest records indicate that John Roblin with wife Elizabeth, and Owen P. Roblin arrived at Adolphustown June 16th 1784 with the VanAlstine party of United Empire Loyalists

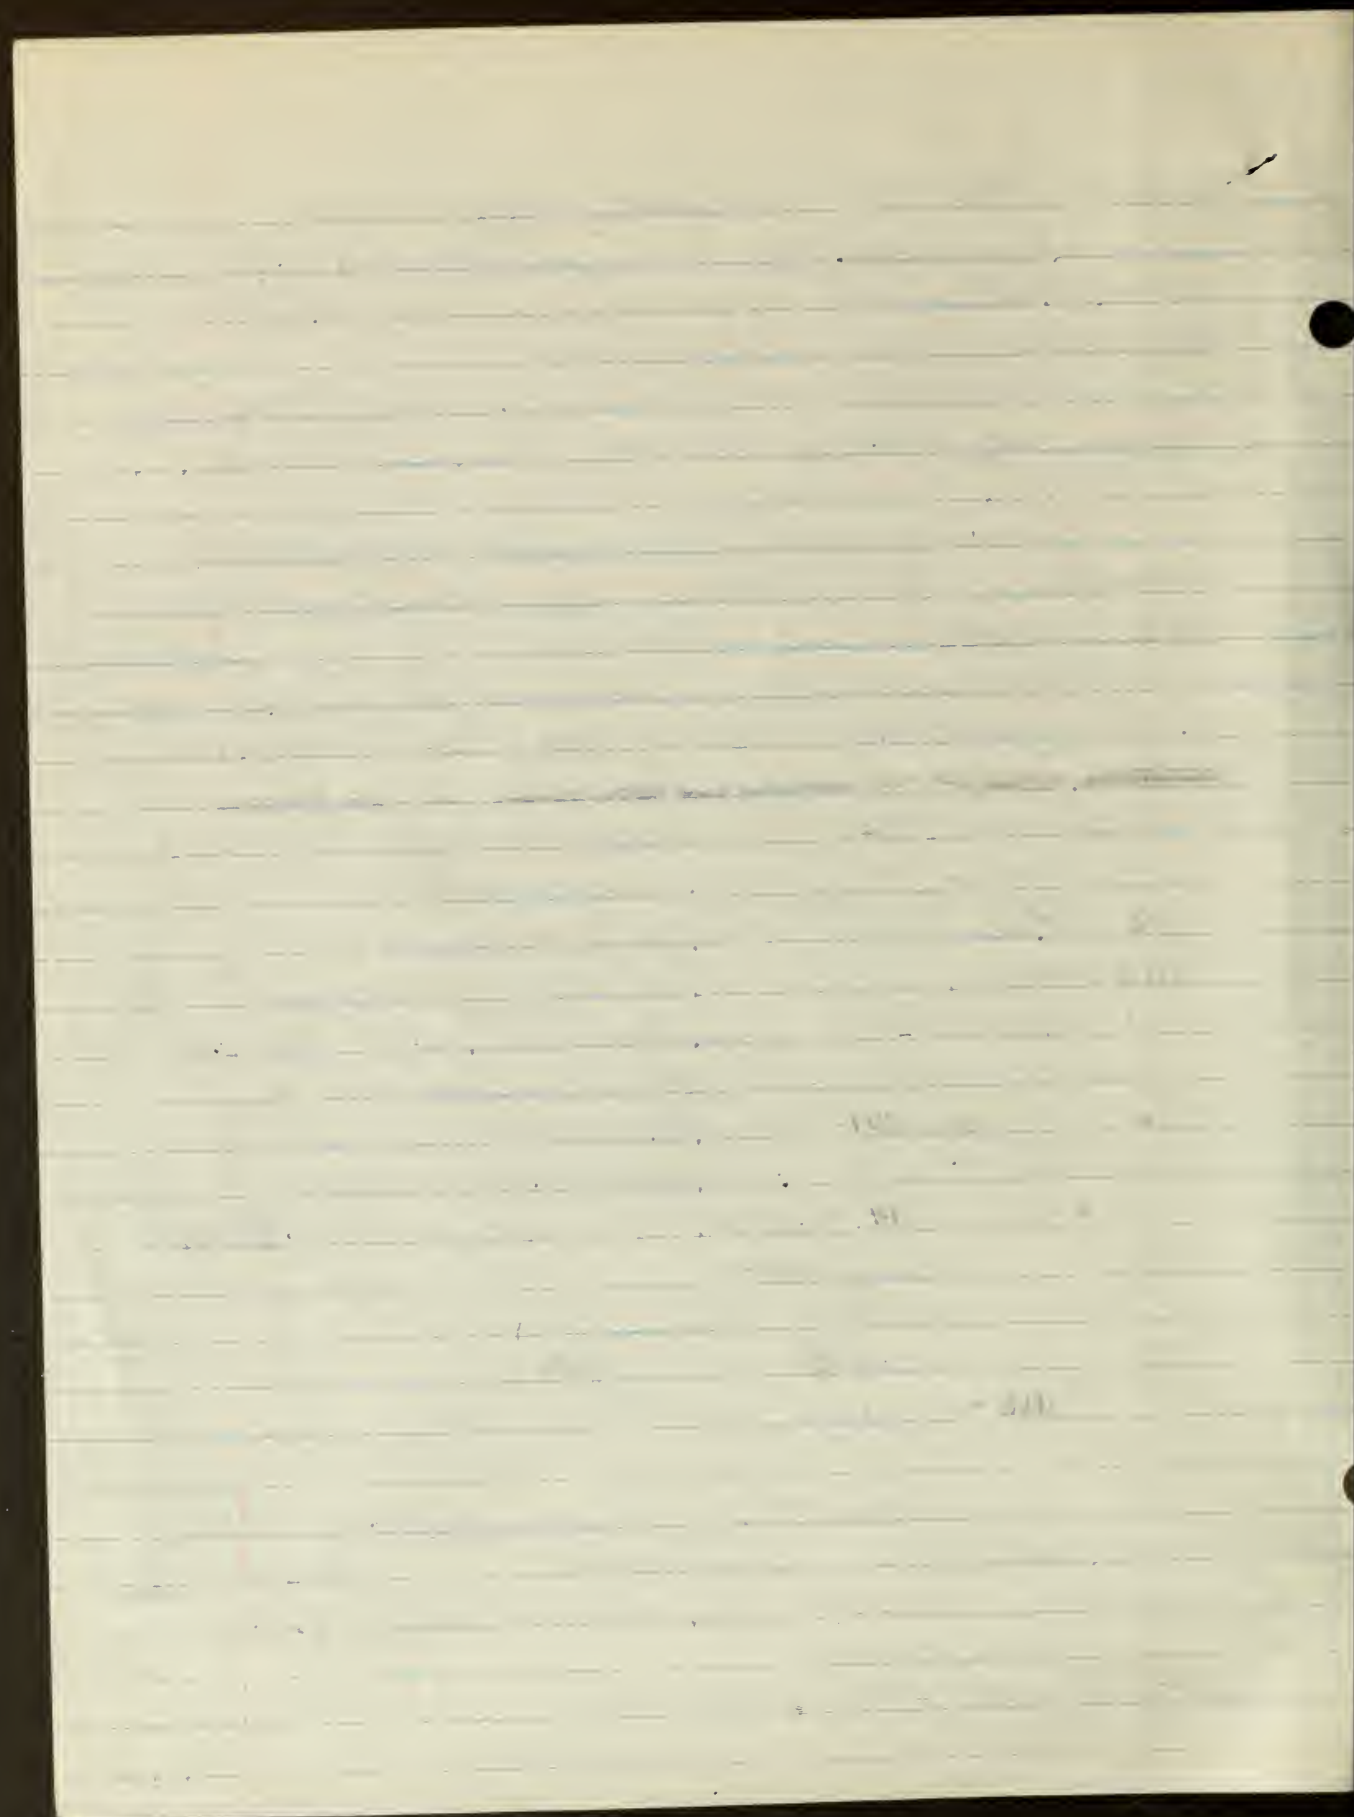

In a census taken the 28th of March 1794 in Adolphustown, the following heads of families were recorded: John, Phillip, Owen P. jr. and Owen P. sr.

Playter's History of Methodism comments on the substantial contribution made by Phillip Roblin's widow to the building fund for the Hay Bay Methodist Chapel in 1792

However one can read in the writings of both Dr Playter and Dr. William Canniff that John and Elizabeth Roblin's family was:

DESCENDANTS OF ABOVE CHILDREN

1) John P. *Roblin* was one of the first converts received by the Rev. Darius Dunham, the second Methodist Missionary to serve in the Adolphustown district. He later became a popular exhorter and preacher, and later when elected for Midland District to the Legislative Assembly, was opposed by the Family Compact group, was unseated, re-elected and again unseated. Again he was elected but died before the next session and therefore did not live to enjoy his appointment or election.

He married, Elizabeth Moore, and they had five children:

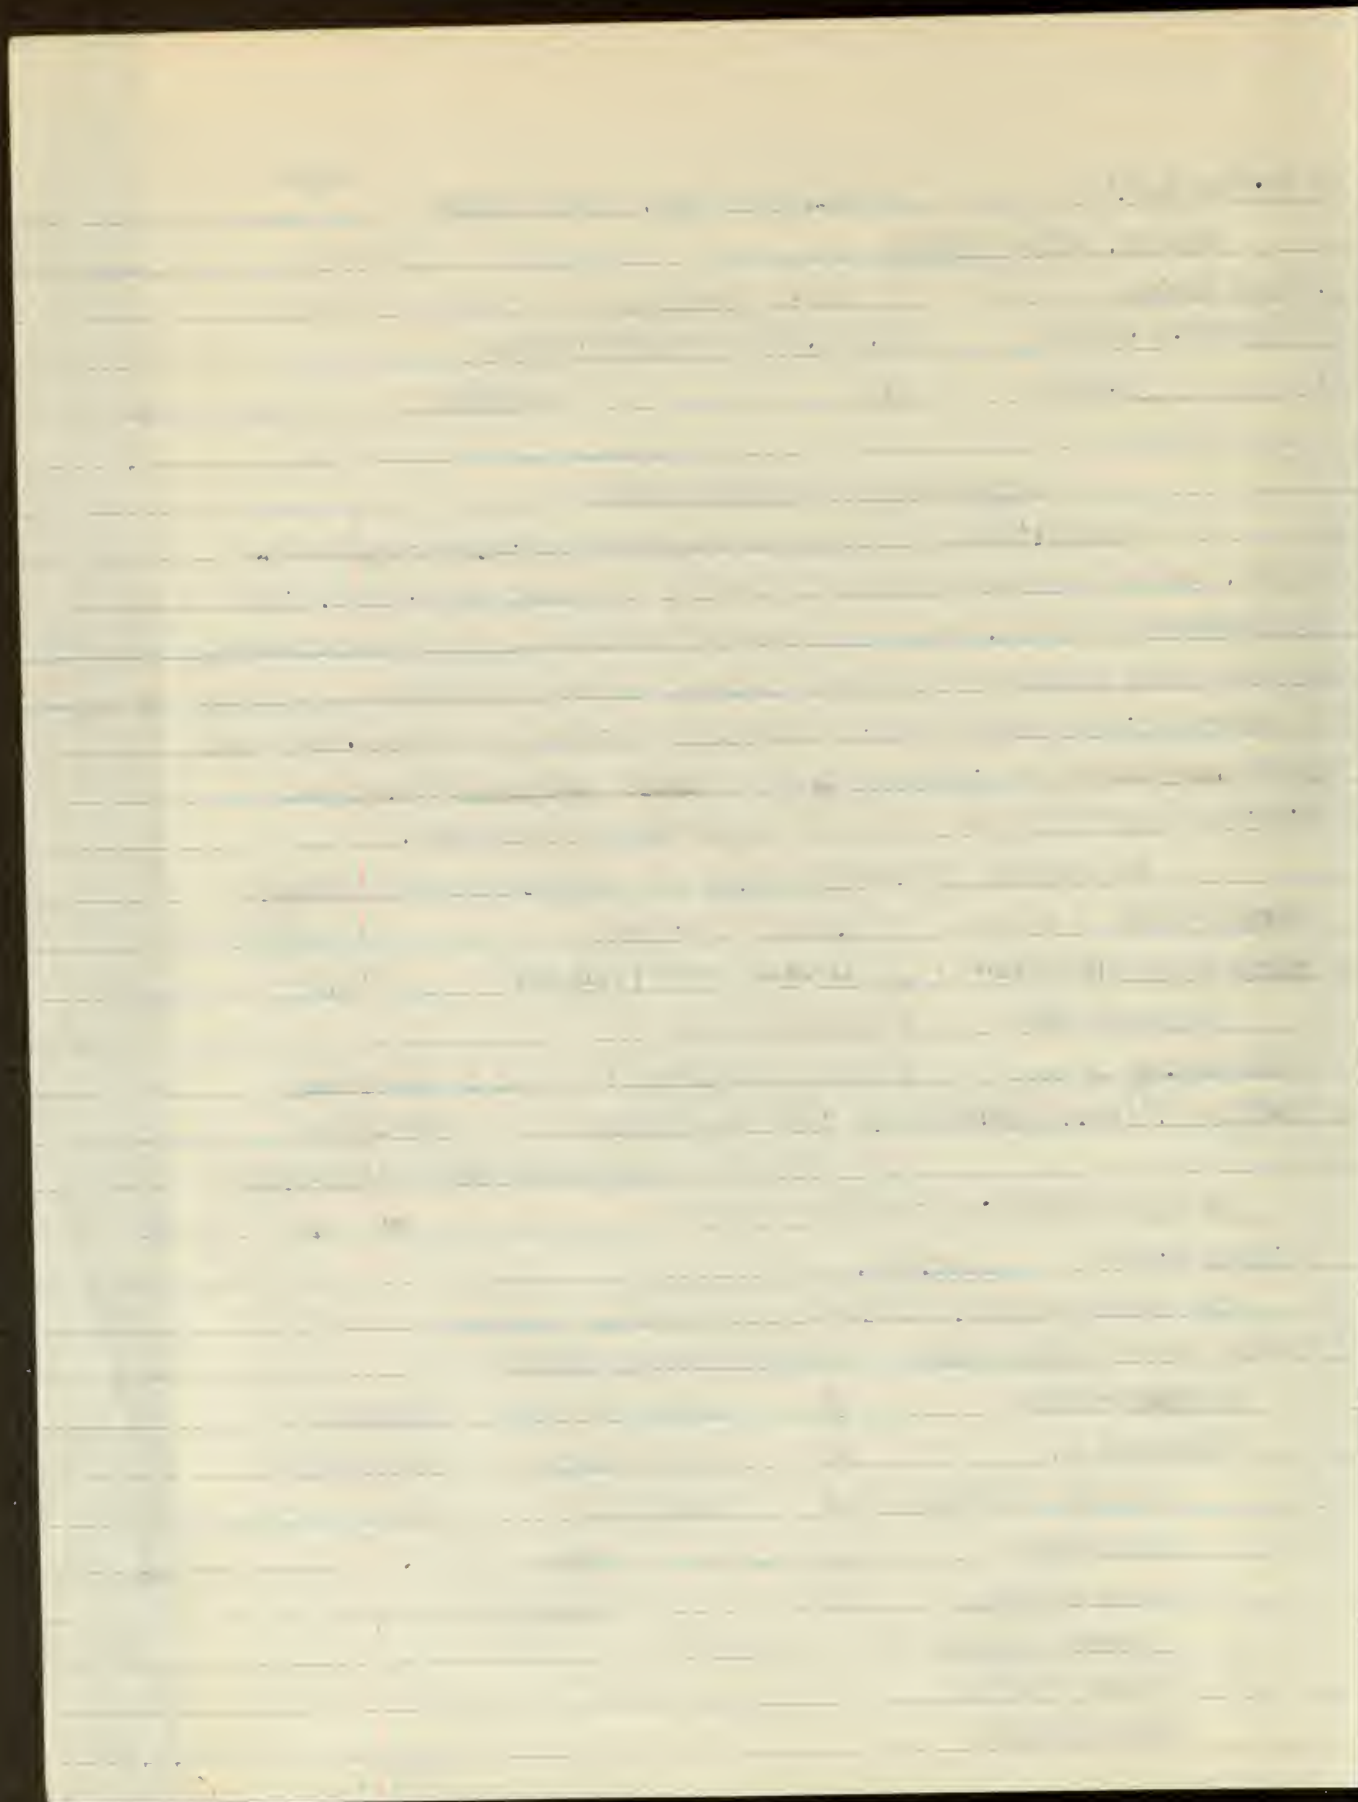

- Marie Roblin                      *1* George H. Detlor                      *Married*
- David Roblin *1812-1863*              *1* *Pamela Hawley 1812-1863*                      *Married*

The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atomic nucleus. It is shown that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

In the second part, the author discusses the properties of the nucleus in more detail. He shows that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

The third part of the paper is devoted to a discussion of the properties of the nucleus in more detail. It is shown that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

In the fourth part, the author discusses the properties of the nucleus in more detail. He shows that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

The fifth part of the paper is devoted to a discussion of the properties of the nucleus in more detail. It is shown that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

In the sixth part, the author discusses the properties of the nucleus in more detail. He shows that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

The seventh part of the paper is devoted to a discussion of the properties of the nucleus in more detail. It is shown that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

In the eighth part, the author discusses the properties of the nucleus in more detail. He shows that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

The ninth part of the paper is devoted to a discussion of the properties of the nucleus in more detail. It is shown that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

In the tenth part, the author discusses the properties of the nucleus in more detail. He shows that the nucleus is a system of protons and neutrons, which are bound together by the strong interaction. The properties of the nucleus, such as its mass, charge, and spin, are determined by the number of protons and neutrons it contains.

of

LEVI ROBLIN, OF SOPHIASBURGH, PRINCE EDWARD COUNTY.

Philip ROBLIN, U. E. Loyalist, of Adolphustown, according to his Loyalist Claim, was born in America and was living in Orange County, New York, when the American Revolution broke out. From the outset he adhered to the British cause and was imprisoned in irons for 13 weeks. He was released eventually and joined the British in New York in 1779, where he was employed in the Barrack Master's Department. His family was subjected to considerable punishment because of this. His son, John, was wounded in the knee by a rebel raiding party, and, because of neglect, became a cripple. Eventually the family reached New York and the safety afforded by the British troops. When the peace was signed and New York was evacuated by the British, the Roblin family set sail on the 8th Sept., 1783, for Canada, where they landed on the 23rd at Sorel.

According to his Loyalist Claim Philip Roblin had 15 acres of land with one tenth share of a grist mill and saw mill at Smith's Cove which had been inherited by his wife, Elizabeth, from the estate of her father, Garret Miller, who died in 1774. This land, ploughed land and meadow, was worth £ 5 per acre. Philip Roblin also had 150 acres of leased land which he had of Philip Livingston before the war. His annual rent was £ 6 per annum. He bought the improvements on this property for a similar price, and made further improvements by fencing it and by building some new buildings. One hundred acres were cleared, and there was a good orchard. He also had a house and two lots in New York which he bought in 1779, on one of which he built a house. When he escaped to New York he left at Smith's Cove, 4 horses, 1 yoke of oxen, 6 cows, 15 sheep, 35 bee hives, wheat, furniture and farming utensils. All these were lost to him.

The Miller family were Palatine Germans who escaped from the Rhine Valley about 1709, and settled in Limerick County, Ireland. About 1760 Garret,

born in the Rhine Valley in 1700, emigrated to America with his wife and family. They settled in New York State and established a community known as Miller's Mills. Garret died here in 1774, and his children, all Loyalists, found new homes under the British flag in various sections of what is now Canada.

Philip Roblin's name first appears in Canada on a nominal roll of refugee Loyalists who drew clothing at Sorel, Quebec, on 19 Nov., 1783, Philip signing a receipt for the same. At that time his family consisted of a wife, one son over ten years of age, two children under six and two over six. A second list of refugee Loyalists in Canada in December, 1783, gives further details of Philip's family, which consisted of himself, his wife, one son over twelve years of age, two sons between six and twelve, and two daughters under six. A third list, being a muster roll of Loyalists and disbanded soldiers, dated 2 Feb., 1784, desirous of settling in Canada, has Philip Roblin, a wife, three sons over ten and two daughters under ten. A fourth, and last, muster roll of refugee Loyalists and disbanded soldiers, dated 5 Oct., 1784, settled in Adolphustown Township, contains Philip Roblin's name with no change in the status of his family. Philip Roblin drew Lot 24 in the third concession of Adolphustown, on the south shore of Hay Bay, where he was residing when, on Feb. 4, 1788, he appeared in Montreal before the Royal Commissioners and presented his claim for losses during the Revolution. Philip died in Adolphustown later in the same year, leaving Elizabeth, his widow, ~~married~~ and eight or nine children. The widow was then 33 years of age.

Playter's History of Methodism (1862) throws some light on the family of Philip Roblin. Referring to the formation of the first Methodist class in Canada at Paul Huff's, in Adolphustown, it states that 'Two miles west of Paul Huff's, where the meetings on the Hay Bay were held, lived a widow

the first part of the reign of King Henry the Fifth, from the year 1400 to the year 1422, when he died.

The second part of the reign of King Henry the Fifth, from the year 1422 to the year 1428, when he died.

The third part of the reign of King Henry the Fifth, from the year 1428 to the year 1431, when he died.

The fourth part of the reign of King Henry the Fifth, from the year 1431 to the year 1435, when he died.

The fifth part of the reign of King Henry the Fifth, from the year 1435 to the year 1438, when he died.

The sixth part of the reign of King Henry the Fifth, from the year 1438 to the year 1440, when he died.

The seventh part of the reign of King Henry the Fifth, from the year 1440 to the year 1445, when he died.

with her four sons and four daughters. Philip Roblin, her husband, died in 1788. The house was larger than ordinary, having two log houses joined together. With the best accommodation, and well inclined to the new preacher, the Roblins lodged him and took care of his clothes.\* Two years later, in 1792, the Hay Bay Church, the first Methodist Church in Canada, which is still standing, was built. In a list of subscribers to the cost of construction is found the name of Elizabeth Roblin. She subscribed £ 12.0.0. A reference to her is as follows: 'Elizabeth Roblin is the widow already mentioned\*. She and her husband came into Canada about the end of the war. They entered by way of Lake Champlain, (as did great numbers of the emigrants) passed up the Richelieu river, and wintered at Sorel,--living on rations allowed by the Government. In the spring, the family passed up the St. Lawrence, in batteaux, or flat bottomed boats, came on to the Bay of Quinte, coasted the numerous bays and inlets, and finally took possession of land on the Hay Bay. It is worthy of remark that the wintering of the emigrants in Lower Canada, while a great convenience to them, resulted in an evil to Upper Canada which is still increasing, and can never be got rid of. The French farmers grew thistles on their land, as now. The emigrants filled their beds with the straw. The beds were carried to the different farms in Upper Canada in the batteaux. The thistle seeds found their way to the land, and the land has never been free from thistles since. The subscription of the widow was very liberal; indeed, the Roblins of the Bay of Quinte have always been hospitable and liberal minded people.'

\*Note: Her son Philip was the father of the present John P. Roblin, of Picton, a man who has served his country in several Parliaments of Upper Canada, and also the Methodist Church in different offices. Her daughter Nancy, born in 1784, and connected with the Methodists from the first

until now (1861), is the mother of a large branch of the Ketcheson family in the county of Hastings.

Children of Philip Roblin and Elizabeth Miller:

1. John P., born 1772, died 1813; married Elizabeth Moore who died 1832.

Their children were:

- a. Maria.
- b. David.
- c. John.
- d. Philip J. (Rev.)
- e. William.

2. Philip, born 1773, died 1848. (see below)

3. Owen P., born 1774, married Mary Dulmage, born 1780.

Their children were:

- a. Elizabeth.
- b. Ann.
- c. Prudence.
- d. George.

4. Nancy Ann, born 1784, died 1872; married William Ketcheson, of Hastings County.

5. David, born 1789 (posthumous?), died 1867; married Mary Rowe.

6. Fannie, married in 1807 Col. Peter Ruttan, of Adolphustown.

7. Mary, married Marvel Garrison, of Fredericksburgh.

8. Elizabeth, married in 1803 Benjamin Clapp.

The book, 'Pioneer Life on the Bay of Quinte,' mentions another daughter who is said to have married James Gerollamy. This is an error, as Gerollamy married a Miss Dulmage.

2. Philip (see above) was born in 1773, in Orange County, New York. He accompanied his parents to Canada in 1783 and to Adolphustown in 1784. About

1875

the time that he came of age he drew land in Sophiasburg Township, Prince Edward County. The book, 'Pioneer Life on the Bay of Quinte,' contains the following information about Philip and family: 'Philip Roblin moved from Adolphustown into Sophiasburg, where he located his land at Roblin's Mills, or Green Point, on the High Shore. In addition to clearing the forest, he managed to build and work a grist mill, which proved not only a success to the enterprising miller, but a boon to the settlers for miles around, saving them their long and toilsome trips to Kingston, and later to Napanee. . . . The founder of Roblin's Mills, or Green Point, married Prudence Platt (born 1771, died 1848), by whom he had nine children; many of his descendants lived to be distinguished men and women of their county.'

Canniff's 'Settlement of Upper Canada' states that Elizabeth Miller, widow of Philip Roblin, Sr., and mother of Philip, Jr., the founder of Roblin's Mills, 'after her husband's death she removed to Sophiasburgh, where she bought a hundred acres of land for twenty-five dollars (which she paid in weaving) and that she herself cut down the trees and built her own log cabin. She subsequently married John Canniff, the founder of Canniff-ton.'

Children of Philip Roblin, Jr., and Prudence Platt were:

1. Levi, born 1793, died 1878. He was a prosperous farmer in Sophiasburgh. He married twice. His first wife was Mary, daughter of Adam Shortt and his wife, a Miss Odell, whom he married in New Jersey, U. S. A. Adam was born in Strasbourg, Germany, and came to America during the American Revolution. He was a weaver, and came to Prince Edward County about 1800, and carried on his trade in Sophiasburgh Township. Levi married a second time to Elizabeth, daughter of Richard Osborne and Sarah, daughter of John (Haunts)

Trumpour, a U. E. Loyalist.

Children by first wife were:

- a. John W., born 1803, married Deborah Rightmeyer.
- b. Eliza.
- c. Philip.
- d. Sarah.
- e. Walter.
- f. James P. He was the father of
  - a. Rodmond Palen (Sir), ex-premier of Manitoba.

Children by second wife:

- g. Thomas.
- h. Caleb.
- i. Maria.
- j. Prudence.

. . . . .

Note: You will notice a different story regarding the route travelled by the Roblins to Canada. My assertion that they came by boat from New York is one that I cannot at the moment prove. I have shipping lists for several boats carrying Loyalists from New York to Quebec, but I have mislaid them. It may be true that they came up the Hudson River, Lake Champlain and the Richelieu River, but I have my doubts, and will have until definite proof can be produced otherwise.

Roblin family from the "VanDusen family history"  
Vol. II. pp. 644-649.

The "COVE" above referred to should be "CLOVE" meaning a cleft in a mountain. It is situated in Cornwall Presinct, Orange County a short distance below Newburg and on a branch of the Erie R.R. which runs through it. At the time of the Revolution Isaac VanDusen, founder of the Orange County branch of the family lived near there on a tract of land of a thousand acres which he purchased about 1745, some of which is still in the possession of his descendants. The land was part of a tract patented to Andrew Nicholas Aug. 24. 1721. The will of Garret Miller of Smiths Cove dated Oct 5th. 1777, and probated June 13th. 1778 mentions wife - (unnamed) and children, Joshua, Mary, Elizabeth, Garret, Nathan, Sarah, Samuel, Ann, Hampton and Jeremiah. Philips wife was Elizabeth Miller, dau. of Garret Miller of Smiths Cove. After Philip's death in 1788 she married John Canniff- pp. 289. U.E.L. Centennial 1784-1884- pp. 243. and Playters History of Methodism in Canada, pp 31.

I have several pages on the Roblin family in my effort to prove who was who and the above is one article that I have under VanDusen family. Likely you have this record and will be able to check if I did find it in that Book. ( book on VanDusens I found in Picton Library.)

You can hand back to me at Picton meeting this application (copy) - I made a copy also on one of our forms for a comparison of the new form of application. I can't see where there is any improvement. You will note the Pedigree Charts were not finished which would be fine but very few can or will be able to do this.

I hope you will have your notice of motion prepared for Picton meeting if you wish it to be passed by The Branch. Otherwise should be sent <sup>to</sup> General Secy.

# Roblin Family.

I am not happy about the confusion in the records of this family. Your compilation is a very good one, but it seems to me that it does not agree with contemporary records. For instance:

1. You call John Philip as the father of John, which John married Elizabeth Moore. In the Maldinand papers this John Philip is called Philip. The U. E. List also calls him Philip. So, why not use Philip? It would save a good deal of confusion.

The U. E. List is as follows:

John, of Adolphustown	Son of Philip. Land Etc. Adolphustown, 1794, 200 ac.
Owen P. do	Son of Owen, Sr., is 21 years of age. Land Etc. Midland, 1793, 200 acres.
Owen, Sr., do	Loyalist, Land Etc. Midland, 1793--unassigned S.E. Certificate states U.E. Provision List, 1786. Gen. Maldinand, 200 acres. entitled to 700 ac.
Philip do	Gov. Hamilton, 200 ac.--Loyalist. Provision List 1786.
Stephen Sophiasburgh & Ameliasburgh	Served in Major Ward's Block-house.
Owen, Jr.,	Son of Philip.

As the U. E. List is our guide to qualification for membership in U. E. L., we should use their naming.

Camriffs story of the Roblins states that John was wounded by rebels and Stephen was strung up by the thumbs. This could not have been the John who later married Elizabeth Moore. This John was only about eight or nine years of age when that happened. Moreover, if the Roblin genealogies are true, this John, born in 1772, did not have a brother, Stephen. That being true, then the brothers tortured were John PHILIP and Stephen, John PHILIP being the father of John, Owen and Philip, as well as David, and four daughters, as noted in Mayter's story of the First Methodist Ch. The family would be schematically displayed as follows:

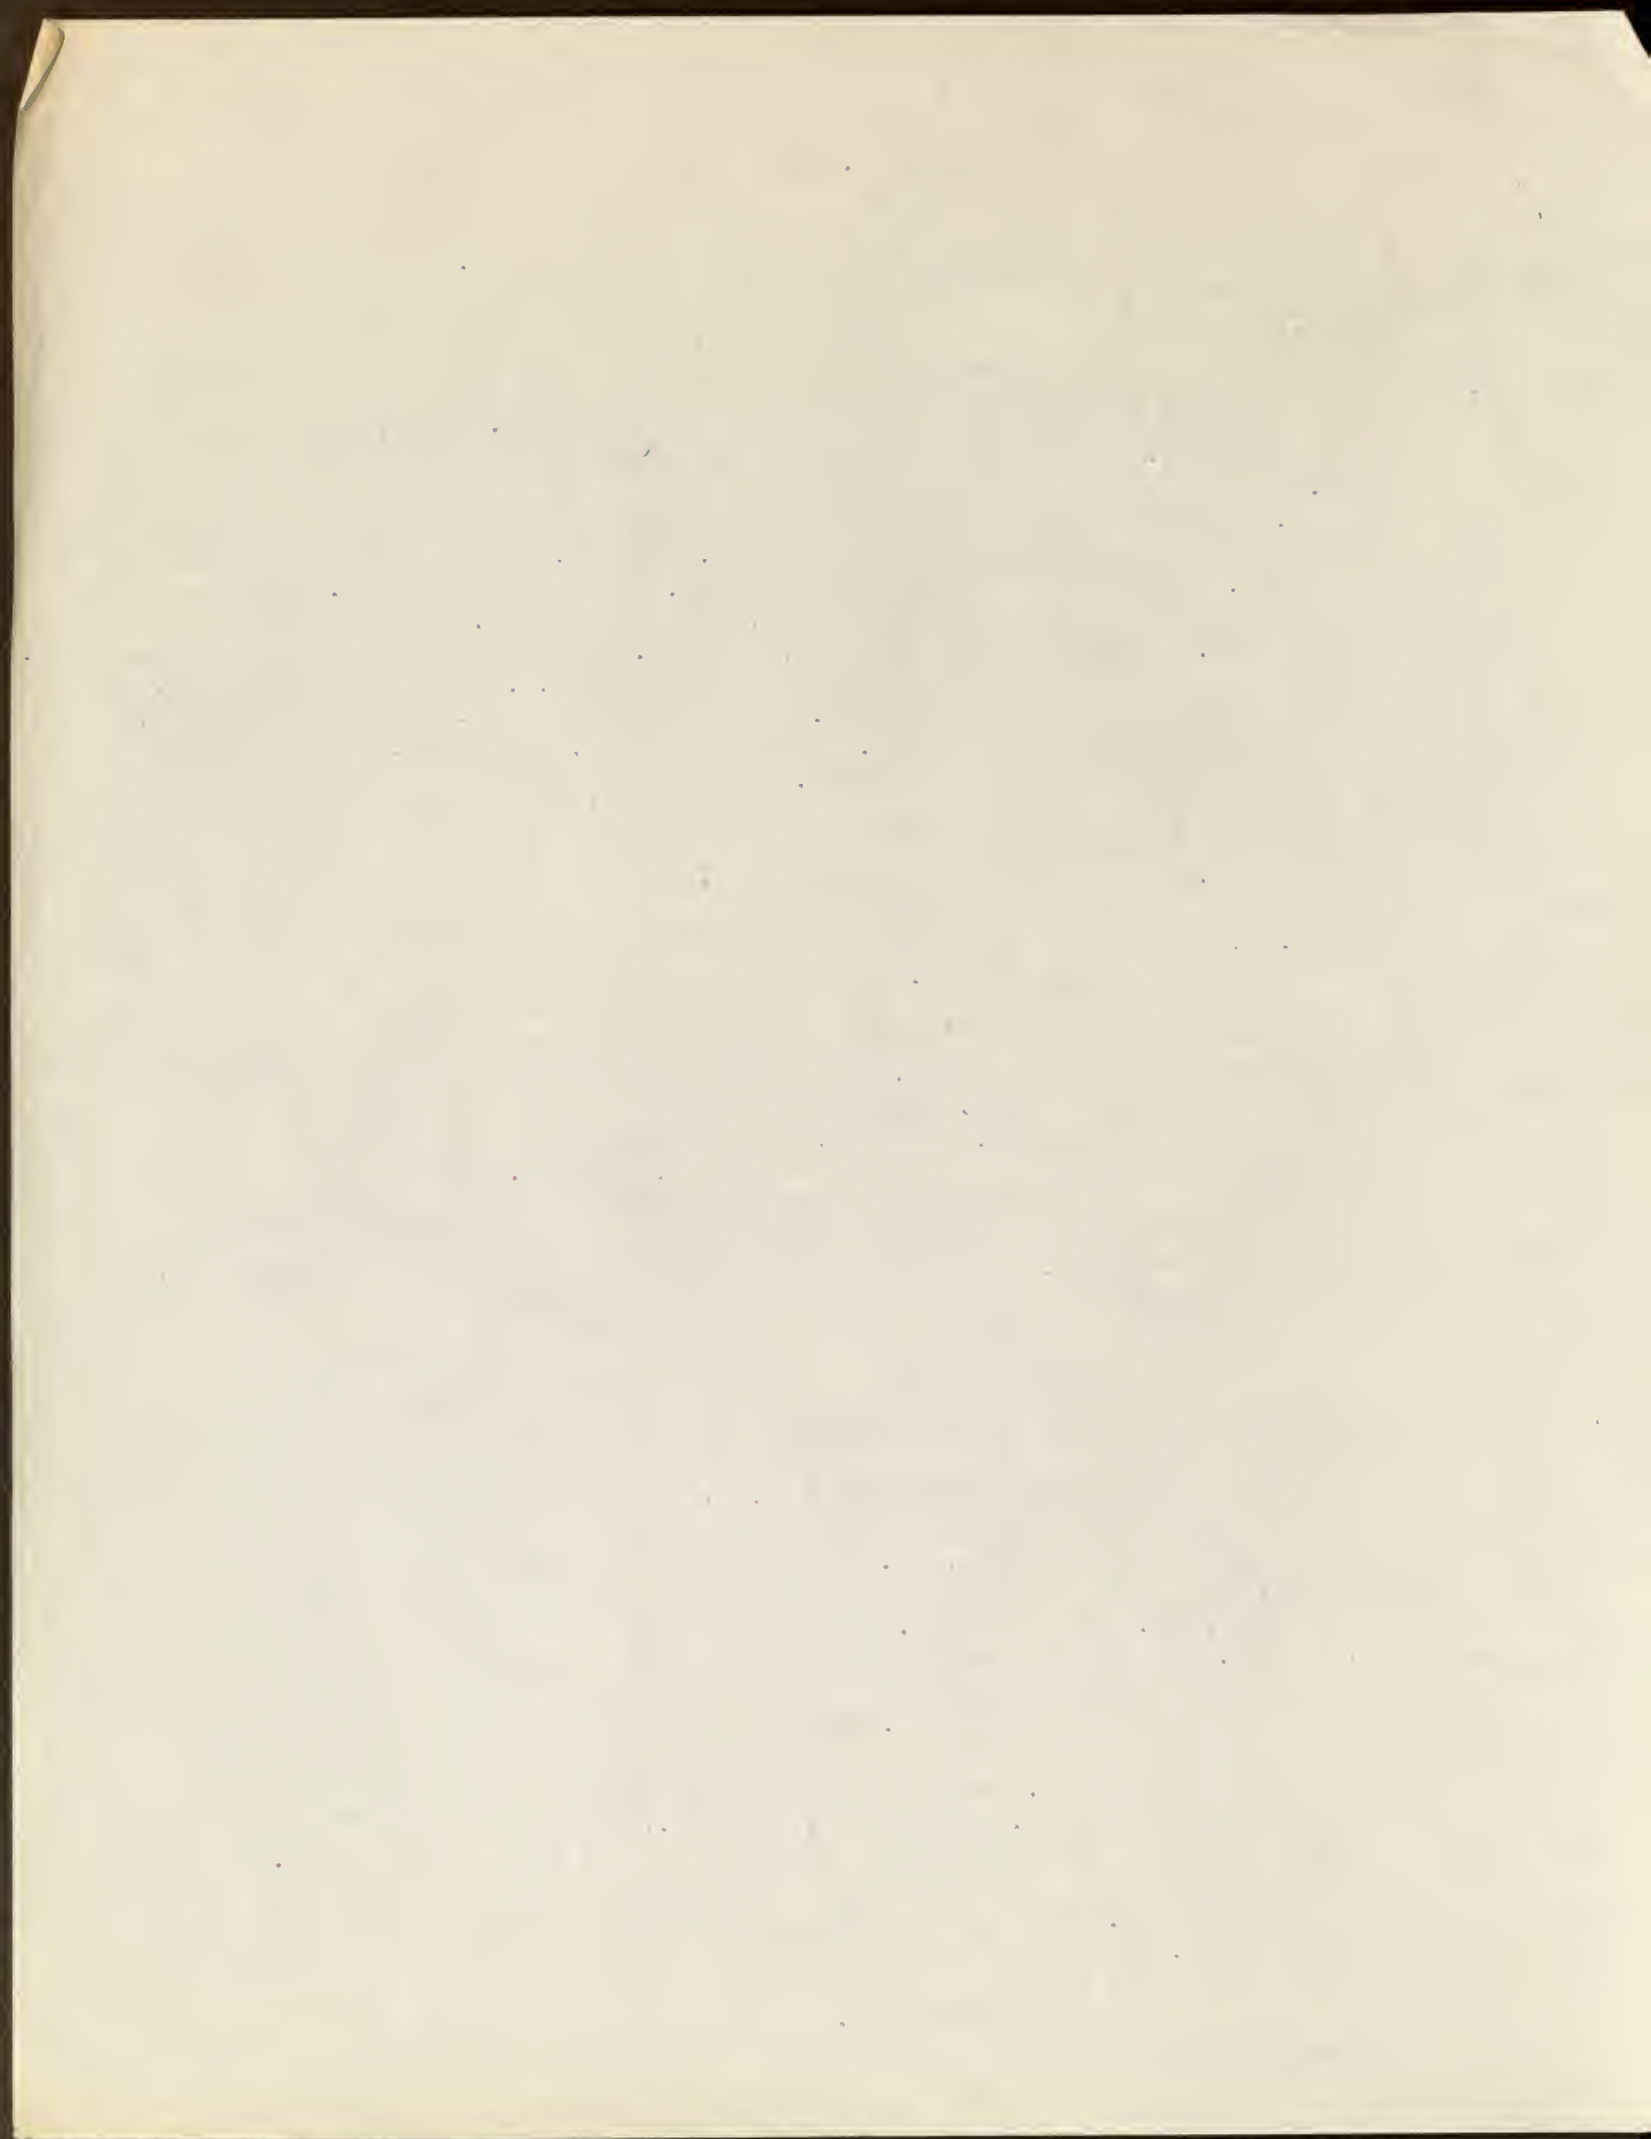

John PHILIP	Stephen
John Philip Owen David and four girls	

Then, if you diagram the Roblins in the U. E. List, you get this:

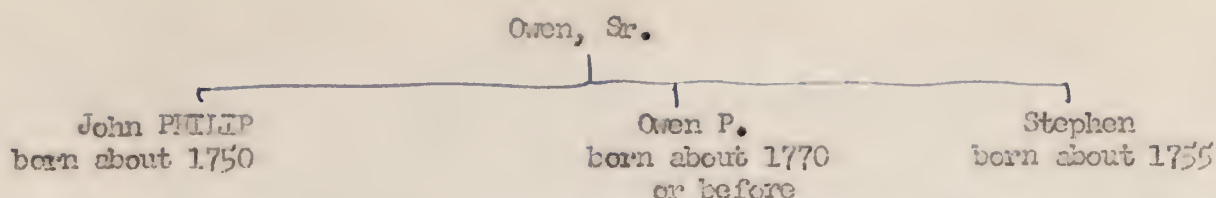

Philip	Owen, Sr.	Stephen
John Philip Owen, Jr. b. 1772 b. 1773 b. 1774	Owen P. aged 21 in 1793, or before.	

Then, note that Owen, Sr., came to Adolphustown, without wife, and with a son over 12 years of age. Furthermore, Owen Sr., died about 1804, when his name disappears from the census of Adolphustown, likely an old man. If this is true, then he may well have been in his sixties when he came to Canada in 1793, and may well have been the father of John PHILIP, Stephen and Owen P., as

~~Owen, Sr.~~

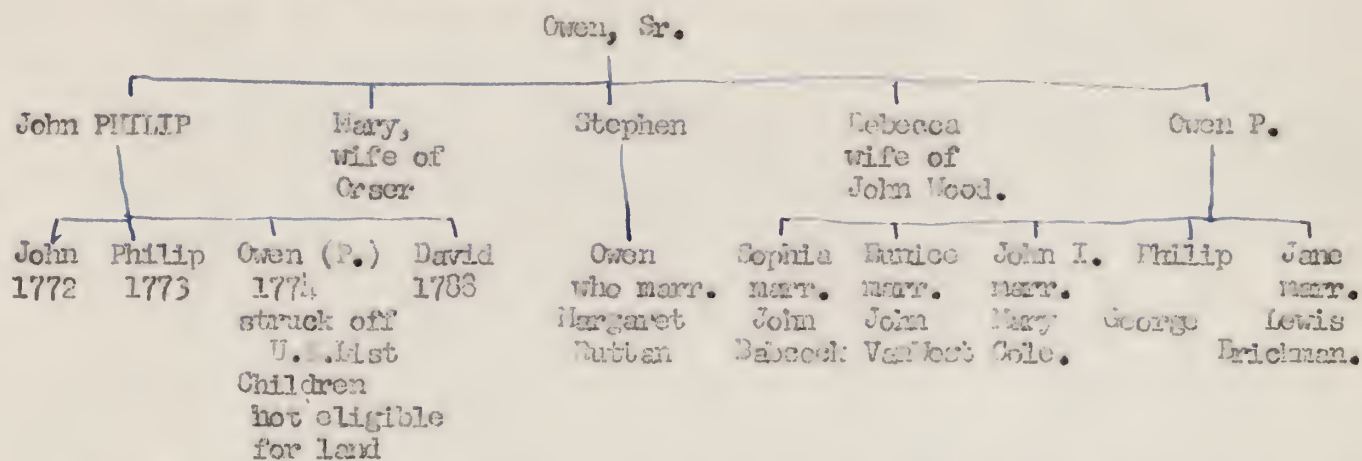

Also, we must note two daughters of Owen who applied for land as daughters of a Loyalist. They were:

Mary, wife of ----- Orser, who drew 200 acres by Order-in-Council 19.11.1798.

Rebecca, wife of John Wood, of Sophiasburgh, married 27 Oct., 1793 do do 20.6.1797.

Neither Owen, son of John PHILIP, nor Owen, Jr., son of Owen, Sr., were old enough to have daughters listed above. Therefore, they MUST have been daughters of Owen, Sr., and to have come to Canada AFTER 1784, as did a good many adherents of Loyalist families. Indeed, they may have been married in U. S.

Therefore, I suggest the following family sketch:

Further interesting information comes from the Loyalist Claims. There are two of them.

Owen, born in America, had been 10 years on a leased farm before joining the British in 1779.

This means that he was an adult in 1769, and, therefore, born in 1749, or earlier. He died in 1803, according to Adolphustown census, and was likely 70, or more, years of age, or born about 1725-30.

Philip, born in America, married Elizabeth Miller, and inherited a share in property from his father-in-law, Garrett Miller. This property had been in his possession for two years, i.e., from 1777 to 1779. We know that his wife, Elizabeth Miller, was born about 1745 or 1750. Therefore we expect that Philip was born about that time.

If this be true, then Owen was in a good position to be father of Philip.

So, the Loyalist ancestors in the Roblin are likely those underlined in red.

Rev. Leander Roblin,  
2 August, 1962.

The Loyalist family of Roblin came to Canada from Cornwall Precinct, Orange County, New York, in the Summer of 1783. After wintering at Sorel, Quebec, in 1783-4, they arrived in Adolphustown Township on the Bay of Quinte on 16 June, 1784.

The Genealogy of the Van Deusen Family, a copy of which can be seen in the Genealogical Section of the New York State Library, Albany, N. Y., on page 45, reads as follows:

In a report of the Committee of Safety of Cornwall Precinct, Orange County, N. Y., dated June, 1775, we get these names:

"Gen Roblin, John Roblin, Edward Roblin, Philip Roblin," also "Garret Miller" and "Garret Miller Junr."

In regard to the above it should be remembered that Philip Roblin married Elizabeth, daughter of Garret Miller, Senr.

Of the above-mentioned Roblins Owen and Philip came to Adolphustown as Loyalists. Stephen Roblin came in a short time after 1784. A muster of Loyalists at Adolphustown Township, 5 Oct., 1784, contains these:

Philip Roblin, a wife, 3 sons over ten years of age, 2 daughters under ten.  
Owen Roblin, with a son over ten years of age. (evidently a widower).

Your descent is from the Owen Roblin, noted above. In 1783 he presented a claim for losses. It reads:

No. 872. Claim of Owen Roblin, late of Orange County. Montreal, Sep. 26, 187.

Claimt. says:

He resided at Sorel in the Fall of '83.

Is a native of America. Lived in Orange Co. when Rebellion broke out. Suffered greatly. Was imprisoned & kept in Irons 13 weeks. Joined the Brit. in '79. Was employed in the Barrack Master's Department. Afterwards served in the out Posts, till evacuation of New York.

Had a Lease Farm held of David Matthews in Orange Co. It was for four years or five years at a time, but says he could have sold the improvements. He had lived there 10 years.

Had a Partner with him. Vale. his improvements at £ 30. Says according to the Custom, he could have sold his Labour done in making Improvements.

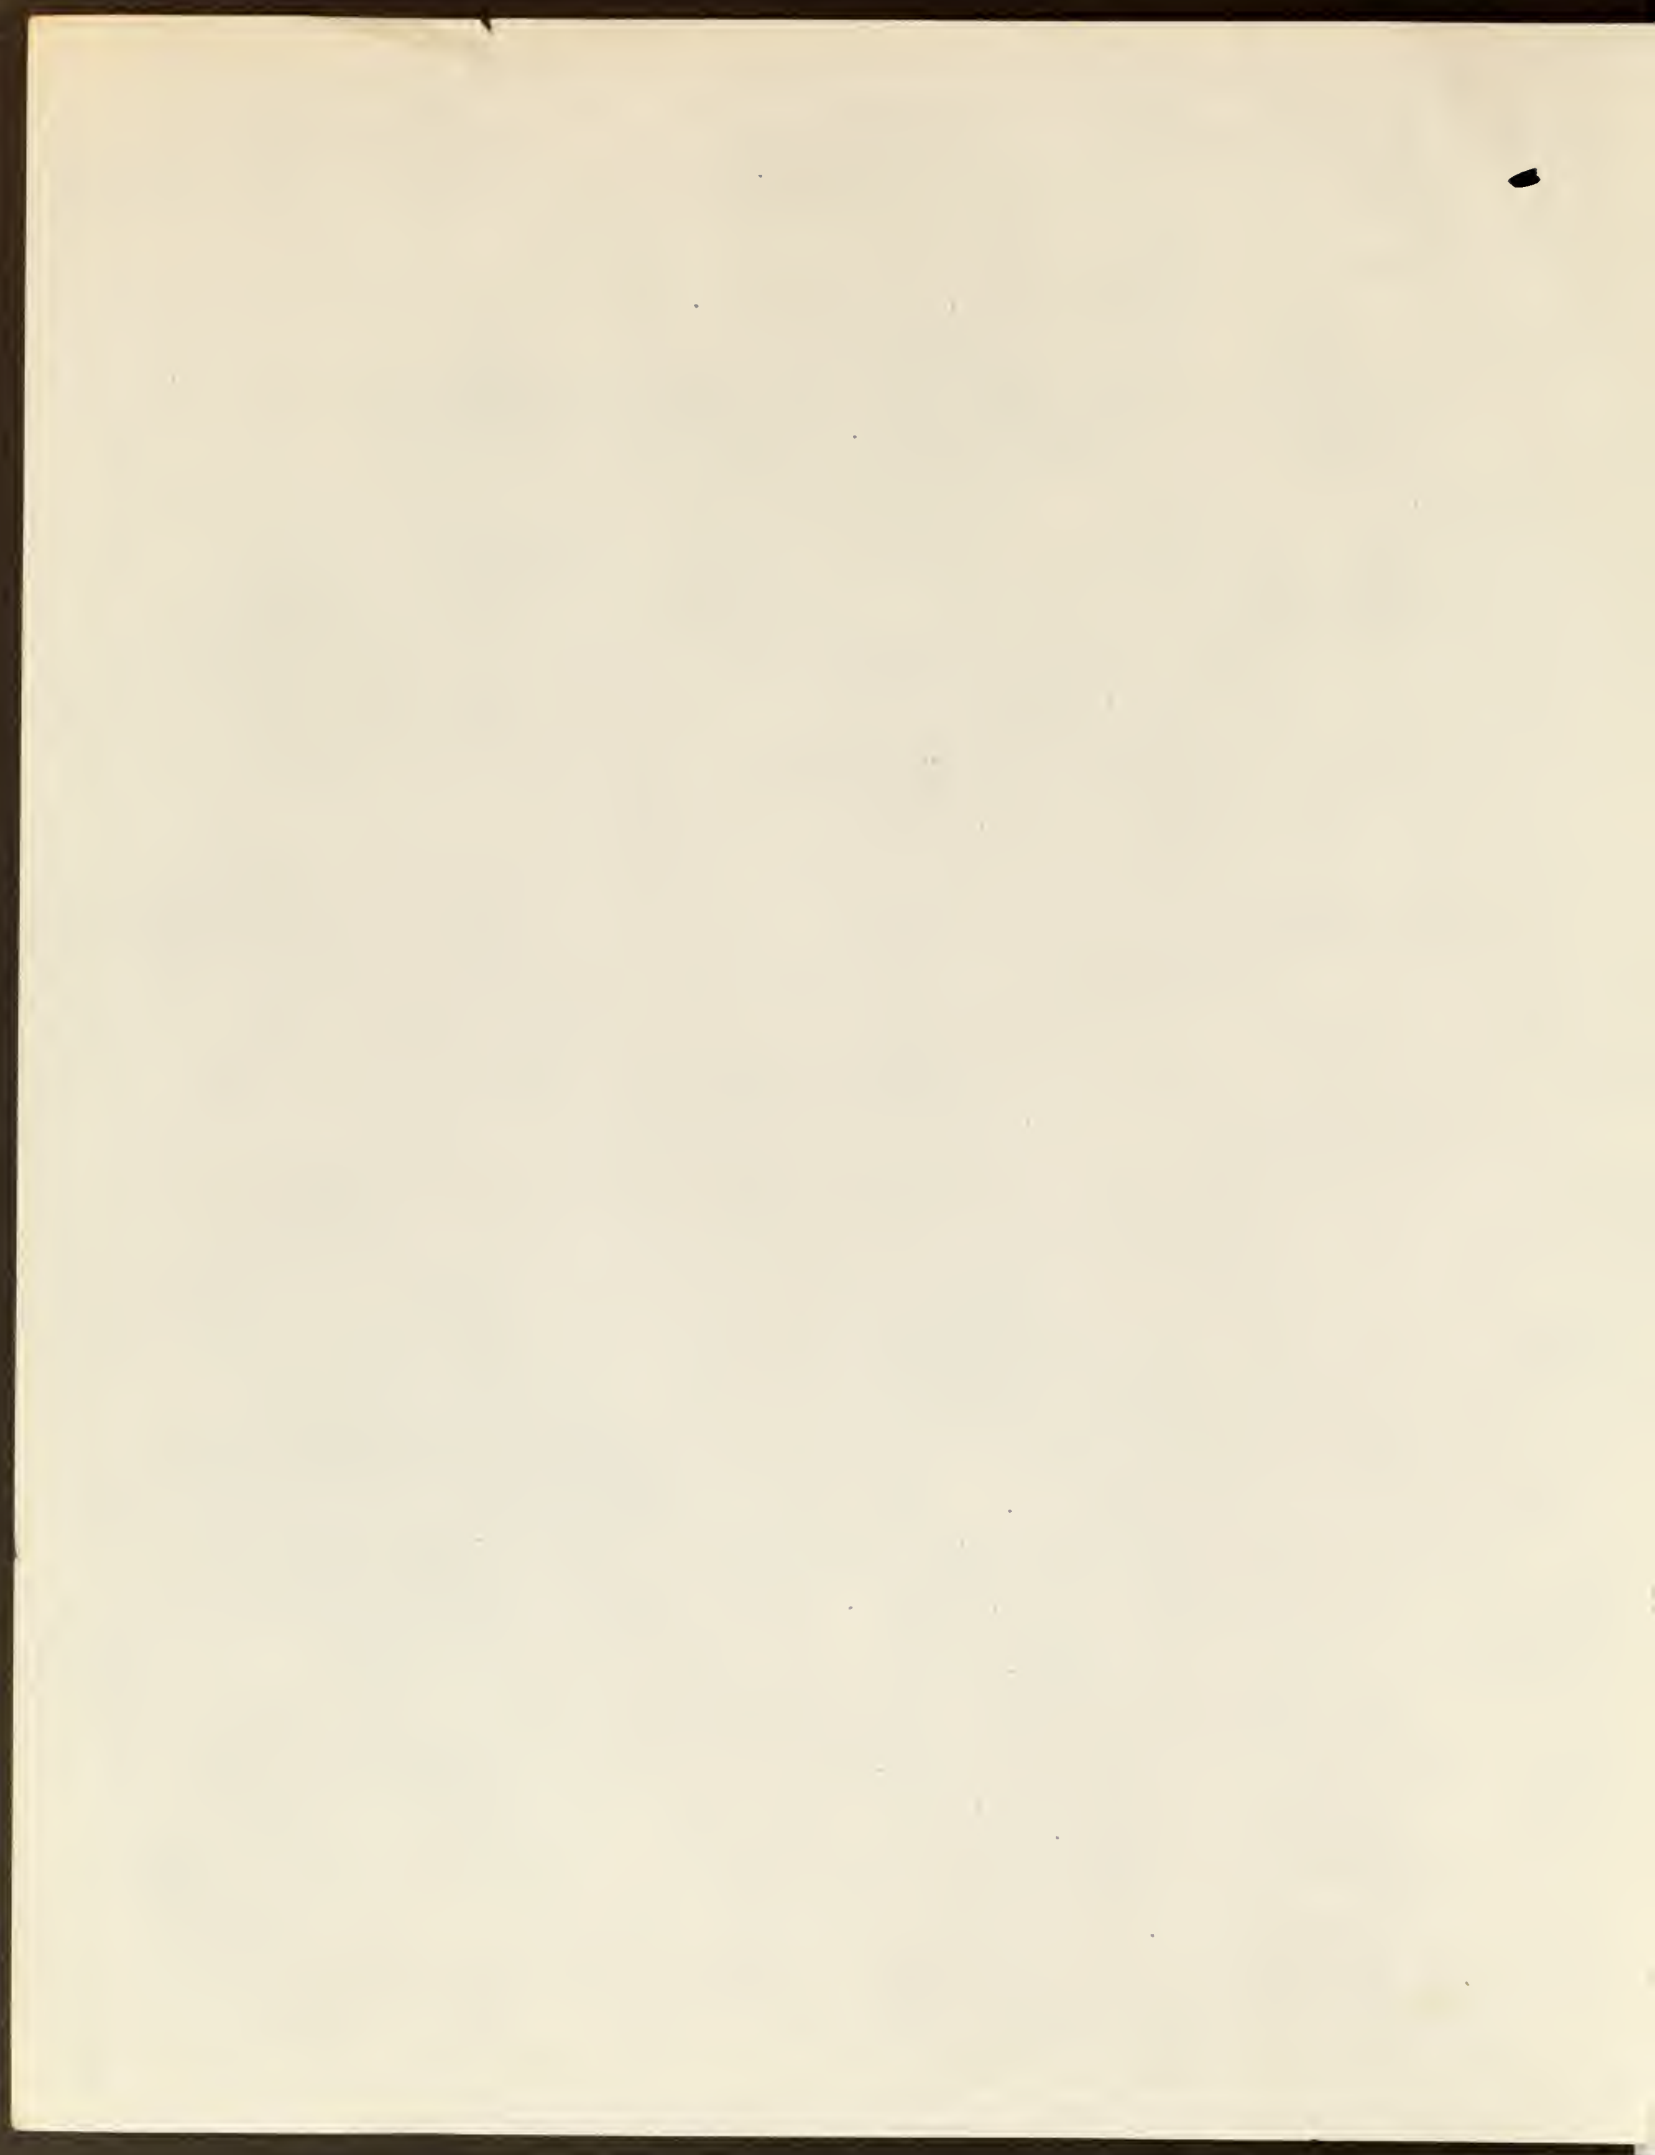

Lost 8 horses, 1 Cow, 6 Sheep, 4 Hogs, Hay & Grain. Left all those things on his Farm when he went away & they were taken by the Rebels.

Philip Roblin, Wite.:

Claimt. went within the Brit. Lines. He was always Loyal. He had been imprisoned before that time. He served at the out Posts.

He had part of a Lease Farm. He had made considerable improvements. Believes by the Custom he cd. sell the Improvements. He had Horses & Cows &c. Left the whole behind.

This Owen Roblin came to Canada, evidently a widower, with an only son Owen Junior. The latter was born about 1772. He must have married before 1794, as in that year his name, with a wife, appears in the census of Adolphustown. The genealogy of the Van Deusen (Van Deusen) Family furnishes the following information regarding him and his family:

OWEN ROBLIN married Mary Elizabeth Rattan about 1793. While there is no proof, she is believed to be a daughter of Capt. Peter Rattan, a pioneer settler in Adolphustown.

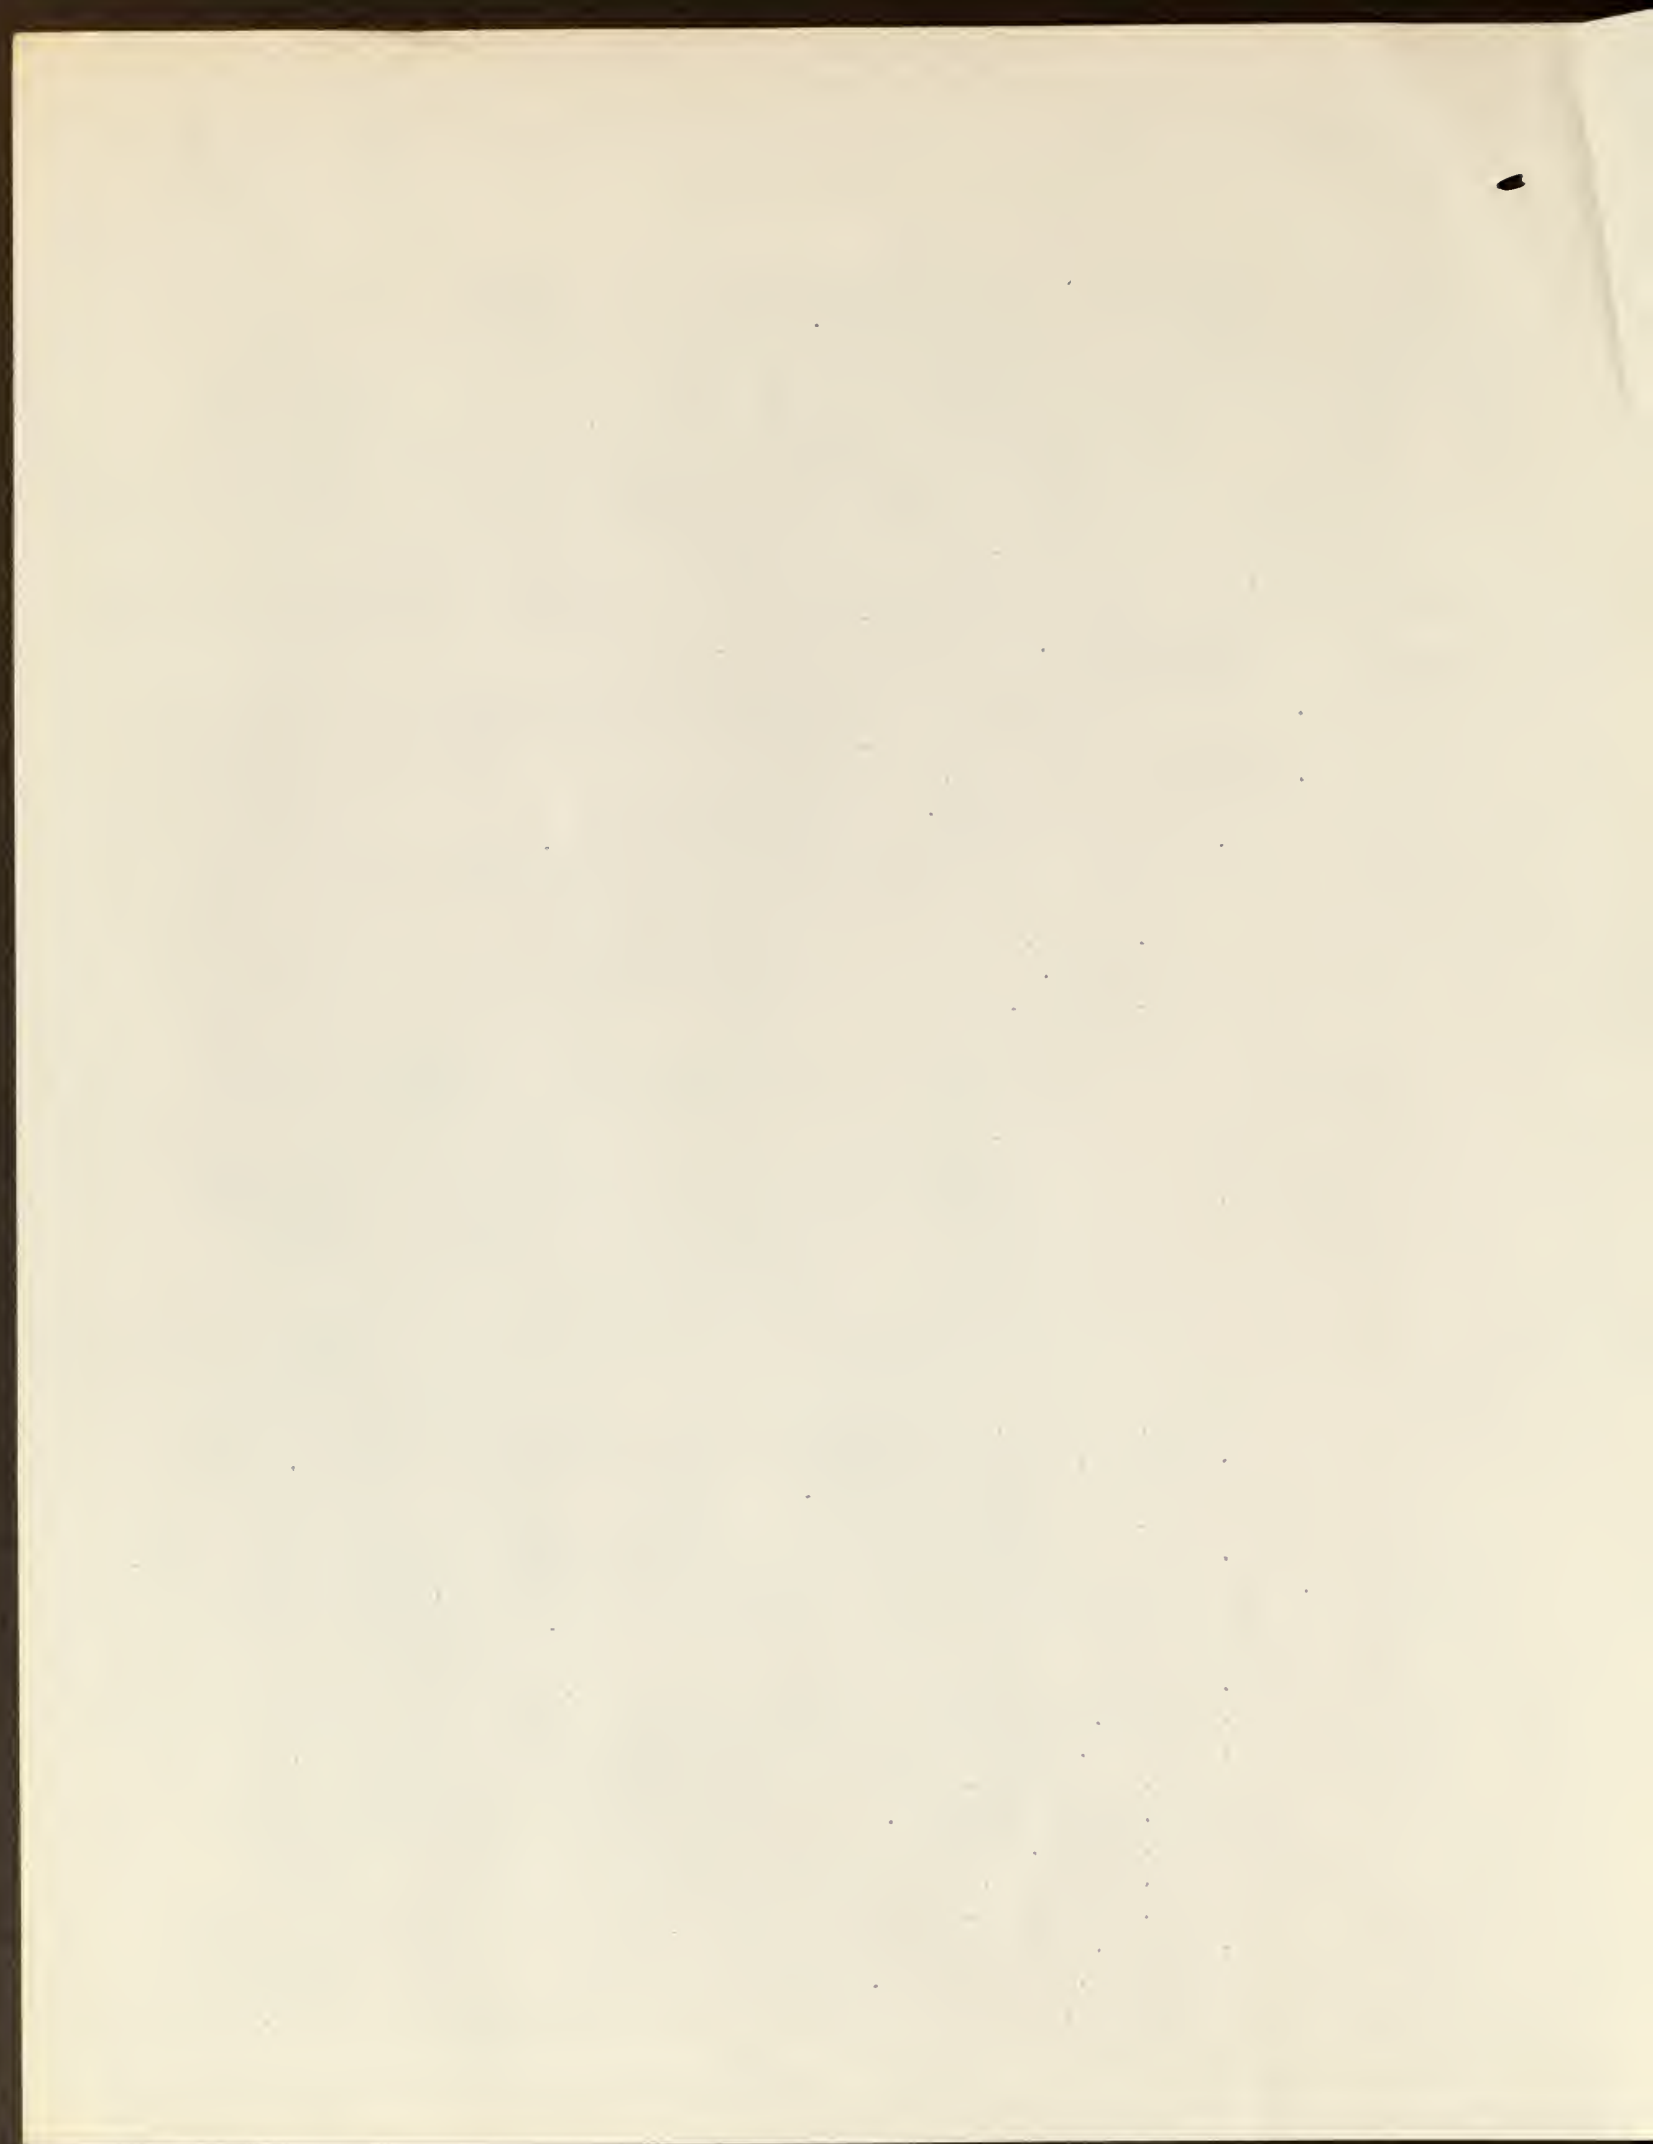

Owen died in Adolphustown; his will, dated 23 March, 1852, records the names of nine of his twelve children, also his wife Mary. Three of his children, Elizabeth, Owen and Philip, had died during his lifetime.

His children were

1. Rebecca, born 1794; married Alexander Robinson, and settled on Big Island, Prince Edward County.

# Roblin's Mill, Ameliasburg One of the Landmarks of P.E. County, to Be Razed

One of the most famous landmarks in Prince Edward County may be torn down soon. The Roblin Mill at Ameliasburg, built 120 years ago, and closed down, has developed a serious crack in the stone walls. Now the danger is that the whole of the west end of the main building may fall.

John Roblin, the first of the clan to settle in Prince Edward County, was a United Empire Loyalist. His son, Owen, built the present mill in 1842. Powered by water, from nearby Roblin's Lake, the mill had a forty-foot head of water over the wheel. Fish in the lake at that time were so thick that a man was paid, full time, to net fish entering the gates of the mill, and prevent them from going through, and perhaps jamming the wheel.

During one year, the lake failed. Rather than close the mill, the owners at the time decided to convert to steam power. The conversion took almost a year, and by the time it was completed the lake was full again.

## FINE STONE STRUCTURE

The main building of the mill is an impressive stone structure, five storeys high. The stone to build it came from Kingston, by schooner, according to some accounts, and was hauled over land from Rednersville. Other accounts suggest the stone may have been local, removed when the road to Rednersville was cut into the escarpment on which Ameliasburg stands.

The inside of the mill is of wooden construction, and most of it is in good repair. The floors appear solid, except at the very dangerous west end, the millstones are still in place and apparently ready for work, and most of the wooden machinery might still work.

Perhaps the most surprising example of preservation is the old flour sifter. This wooden machine, on one of the upper floors, retains some of the silk screens that once sifted the flour, and there is still flour, many years old, in the machine. Although the windows are boarded up, some parts of the mill convey an impression that the business is just closed for a weekend.

## NEVER CLOSED

During the mill's heyday, however, it was never closed. When the American Civil War put rifles in the hands of most American men, Canadian farmers grew the food for most of the Northern States, and Upper Canadian mills provided the flour.

# Ottawa Lady Visitor Here

It has, once again been the pleasure of Mrs. Elinor Aveugle Cartwright to visit Prince Edward County. Mrs. Cartwright, a syndicated poetic theorist, patron of intense drama, and liason officer of the Canadian chapter of the World-Wide Anthropolomical Society, states that although it has been approximately a year and a half since her first and only visit to Picton, she has renewed several former acquaintances. Again the industrial development and scenic beauty of this area has not been overlooked by Mrs. Cartwright; previously she noted the cement manufacturing, this time she remarked on the further progressive trend of this community, exemplified in the new Silex plant, coupled with the yet unspoiled beauty of Lake-on-the-Mountain, and Cressy Point.

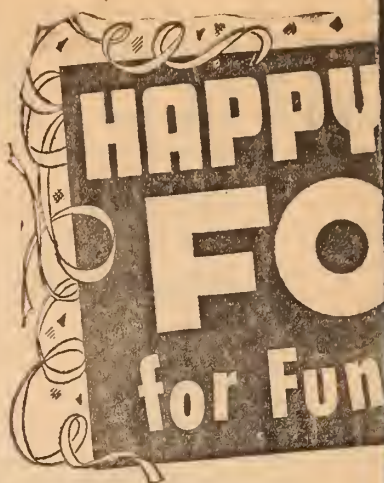

Stopping for these few days with friends at 25 Lake Ave., Mrs. Cartwright is caught between an inflexible schedule and the Christmas turmoil. After completing several commitments in Toronto, she plans to proceed to Ottawa, Ontario, where, among other things, she will lecture at a special seminar for drama critics at Carleton University, thence to return to New York to render her latest manuscripts for publication before the Christmas festival. However, Mrs. Cartwright has expressed a desire to return in the near future for a somewhat more extended sojourn in the "County".

## BIRD SPEED LIMITS

How fast to migrating birds travel? Most small birds have cruising speeds of from 20 to 40 miles an hour. They can fly a bit faster in an emergency, but not for long. The rate of travel and, to some extent, the routes, depend a good deal on the weather. Most species fly only about a hundred or 200 miles in one night or in one day. Then they rest up and feed for two or three days, or even a week, before resuming the journey south.

Roblin Milling Co. Ltd. was operating 24 hours a day for the duration of the war and part of the following reconstruction period.

Two teams of horses, according to local history, were kept busy at all times, hauling flour to the port of Rednersville. From Rednersville schooners sailed regularly to American ports. Production of the mill at this time was about 100 barrels per day, according to the "New Historical Atlas of Hastings and Prince Edward Counties", printed in 1878.

With the Roblin Mill as a centre, Ameliasburg, then known as Roblin's Mills, became a prominent town. The same water used to run the Roblin Mill was also put to work, at the bottom of the escarpment, to operate a sawmill, using one of the old fashioned upright saws.

At the same time, there was a cooperage mill, a shingle mill, and an ashery below the escarpment. The sawmill burned before the year 1900, and was replaced by an apple evaporator. The evaporator didn't last long either, but an account of the town during the year 1900 gives the population at 500, and the businesses included two blacksmith shops, two carriage factories and three large stores.

#### WILL BE TORN DOWN

Edward Roblin, the last of the family to operate the mill personally, died in 1900, and Richard Roblin, the last Roblin to own the mill, died in Rochester, N.Y., in 1940. Harry Smith, of Belleville, bought the property and the then inoperative mill in 1947.

Now owned by Mac Smith, of Belleville, the building will be torn down, in the indefinite future. Mr. Smith said he once had plans for it, but that he abandoned them when he realized the building would not last. But while it does last, the building contains a slice of Prince Edward County history.

#### JUNIOR JOTTINGS

**SKIPPER** Jim Weedon of England's Downderry Juniors appears headed for a brilliant soccer career. The 4-foot, 2-inch 10-year-old has scored 210 goals in 38 games, including one single-game splurge of 20 goals. . . . Bobby Storey isn't letting his dad's reputation cramp his style. The son of the onetime Grey Cup hero and ex-NHL referee Red Storey, is one outstanding running back at Montreal's Lower Canada College.

**THE NORTHERN** Ontario Hockey Association (NOHA), in a move to keep its junior hockey players at home, are moving to divorce themselves from the OHA and become recognized as a separate branch.

**SANDY CAMPBELL** is not only the prettiest member of the Hiscock Comets of the East Toronto Ladies' softball league, but she boasts a .457 average that won her the junior division batting title.

fashion for at least three thousand years — and very possibly more. The people of ancient Persia dyed their hair and the practice was also common in Assyria and Babylon. The gentlemen of long ago, however, apparently did not prefer blondes. The favorite hair-dye color of the ancients was black, although for special occasions it was sparked with a sprinkling of gold dust.

is not his first time. He has previously served a term of imprisonment for depredations committed in the Northwest Territories. His worship thought that six months would land him safely over the period when work is scarce, and might also serve to keep him in the paths of righteousness for the remainder of his life.

George McEwen, formerly member of the Dominion House for South Huron, well known in Ontario political life, was in the city yesterday. Mr. McEwen came west to inspect a timber berth which he owns in the Fort Frances district and to examine farm land which he holds in Blinscarth. Regarding the Ontario elections Mr. McEwen states that Mr. Ross will make a good fight to hold the province for the Liberal cause. As Mr. McEwen states, the brightest expectations in politics are frequently disappointed and doubtful prospects often precede a decided victory. Mr. Ross has a warm place in the regard of Ontario voters and Mr. McEwen will not be surprised if he should be returned with a substantial majority.

July 1972

**EDITOR'S NOTE:** This is the third in a series of articles by prominent Prince Edward County genealogist Loral Wannamaker on the Robline family:

**ANN ROBLIN** — sister of John and Stephen Roblin.

Ann Roblin — married to Nicholas Wessels who did arrive in this settlement in the year 1787 with five children, and remained here and made considerable improvements and believe he has never drawn more than 200 acres of land.

Given under by hand and seal at Adolphustown 2nd August 1797.

3. Elizabeth Wessels b ..... —

—m— July 22nd, 1819 to Robert McCamon.

Of interest to me is that Jonathan Greeley, after Harriett died in 1813, married by great, great grandmother Harriett (Roblin) Loveless, previous to 1815, she being a first cousin of his first wife and they had a family of five. Nicholas Wessels was an early settler but not a loyalist U.E.

Wessels Ferry from Thompson's point to Nicholas Wessels' farm and roadway up a long steep hill in the landing ended in a spacious lawn, about an acre where

stood a handsome frame Church, painted white, known as Wessels Church, a M.E. Church (One) (O.H. S. Vol. XXI.) This is the land previously reported sold by adminis-

trator Owen Wessels for a church. This church was located, I find, just over the fence east from the new home built by Ronald Roblin in 1968.

## Urges Quiet Zone Sign In Hospital Vicinity

The Editor,  
The Picton Gazette:

It came to my attention over the past weekend that the people who are convalescing in Prince Edward Memorial Hospital must have a difficult time trying to sleep and get back into shape with all the racket going on outside their windows.

Living very close to the hospital myself, I was passing away a quiet Sunday afternoon, watching a good program on television, when the silence of the still day was shattered and the sound from the television

became inaudible, when within the short span of ten minutes three times the squeal of tires from directly in front of the hospital were all that could be heard. I'm in good health and found this noise rather irritating, and this was with the TV turned on, no less. If it was so distracting in my case imagine the effect on a patient who is in desperate need of sleep if he hopes to recover quickly and leave the confines of the hospital. The revving of a motor is fine at the right time and in the right place, but Saturday night and Sunday afternoon in a hospital zone, where the right to peace and quiet is generally respected is neither.

On behalf of the patients in the institution I make a plea to those

The Editor,

There will be from Queen's Park." She added, "We find that people are critical of Queen's Park, but when they want something they come running to Queen's Park. We are not going to dictate a plan you are going to live by. We have spent time here in the region and are very interested to see what the people would like. If the people from Prince Edward County say, 'Even if you develop Trenton or Belleville we're not willing to go to work there,' then Picton will develop."

Planning is not onto, remarked Cecil. Prince Edward County has hired planning consultants and forms have been prepared which the government planning branch has looked at. "Planners will check the plan, look at the inadequacies and discuss the plan with Prince Edward County. This is not a unilateral thing where Prince Edward County looks at it and approves it. The question of trade-offs is not dictating what happens. It is unfortunate that com-

County for official until guidelines are set that are approved by Mr. McKeough (Ontario Minister of Treasury, Economic Affairs) there are no guidelines.

At last month's Chamber of Commerce meeting it was argued at length whether or not a plan was in fact necessary and if there are no major changes foreseen there just let things continue as have been. According to Mr. Louis, "You must have a plan if you want de-

# Need For Jobs

Most local residents favor industrial development, but to a limit while also keeping the area green, and developing in tourism and farming. This was evidenced at a recent meeting of government officials with local residents to discuss regional development in the area.

Bill Silver, President of the Picton Chamber of Commerce sides with those looking favorably to industrial growth. "There is extraordinary unanimity on what we want for the county. The lack of planning means very large centres have developed." Mr. Silver continued, "In the best interest of the province, it is best if growth is dispersed throughout the province. Prince Edward people grow up in Prince Edward County and want jobs in Prince Edward. We want farming increased, but feel farming won't create many new jobs, so industry is important. We want industry not to quadruple the population but to create jobs for people."

## JOBS ARE NEEDED

On the same line of thought, another member of the audience said, "We want people to come and enjoy the beauty of the county. We want them to visit, but we also want them to work for the people of

to see Canada Cement and the other go in there. I know that by making the region recreational a big chunk should be black, but we want to keep as much recreational land as possible."

## TOURISM COMPLAINT

There was one person who believes that while the government on the one hand is trying to encourage the local tourist industry, on the other hand they constitute a good deal of competition and don't help their fellow man in the tourist business. He said the government gets paid through entrance fees to provincial parks, as well as being able to post signs that tell you to follow smaller signs, whereas there are regulations set that you must have signs 100 feet back of the road and so forth for the county.

Miss Barber said in response that the Provincial Government pays taxes on the land.

One more person in the ranks those afraid that through tourism public areas of Prince Edward County would become unspoiled places was Wellington Reeves, the Marvin. "I would hate to see Prince Edward remain strictly a tourist belt." He added that he's a local provincial park and in-

knowledge is slowing down the economy can be stimulated to a point where increased production can provide the additional jobs we need." "4. Introduce a massive export drive, to greatly increase sales of need."

Again I quote — Four branches of the ROBLIN family came into Canada after the Revolution, two of whom were John and Stephen Roblin came in circa 1788. (Dr. Canniff — Settlement of Upper Canada).

In doing research at Public Archives, Ottawa we find this document.

**EDITOR'S NOTE:** This is the fourth in a five-part series compiled by widely known Prince Edward County genealogist Loral Wannamaker.

Again I quote — "In the beginning four branches of the ROBLIN family came into Canada after the Revolution and John and Stephen were brothers. (Dr. Canniff — Settlement of Upper Canada.).

From the early records we name the other two — OWEN ROBLIN Sr. and PHILIP ROBLIN.

OWEN ROBLIN Sr. — late of Orange County and a resident of Sorel in the Fall of 1783 with Peter Vanalstine and Associates. On the Muster Roll at Sorel, April 4th, 1784 as 1 male and 1 male over ten years. (Haldimand papers.) — (No wife or daughters).

OWEN ROBLIN Sr. — Muster Roll Adolphustown, October 5th, 1784, and on the first survey may he is located on ½ lot 24 and ½ lot 25 in the 4th Con. north side of Hay Bay.

OWEN ROBLIN Sr. — On September 26th, 1787, he said he was native of America and lived in Orange County when the rebellion broke out. He suffered greatly, and was imprisoned and kept in irons for 13 weeks. He joined the British in '79 and was employed in the Barrack Masters Dept. After served in the outposts till evacuation of New York. He had a lease on a farm held by David Mathews in Orange Co. He lived there for 10 years. Valued his improvements at £30. Lost eight horses, one cow, six sheep, four hogs, hay and grain. Left these on the farm when he went away and they were taken by the Rebels. (Loyalists Claims of British Gov. The certificate should specify that the petitioner was in the Block house at the time it was attacked by Gen. Wayne. Confirmed. (Dr. Canniff — Settlement of Upper Canada). P. R.

At Sorel we found Owen Roblin

with a Son in 1784 — that is, one man and one male over 10.

1794 — at Adolphustown, Owen Roblin Sr. one man.

1794 — at Adolphustown, Owen Roblin Jr. one man, one woman.

\*(1795 at Adolphustown)

\*(1795 at Adolphustown)

The above two Roblins of father and son do not appear.

(\*) (1795 at Adolphustown) Owen Roblin, man two, woman one, male 0, female one, equals four.

(\*) (1812 at Adolphustown) Owen Roblin, man one, woman 1, male three, female six, equals 11.

(\*) This is ONE EYED OWEN Roblin son of John who was shot in the knee as we have followed the Muster Roll from 1795 to 1812 and each male and female birth coincides with the family of this Owen son of John Roblin, who had 11 children.

\* In 1795 muster at Adolphustown Owen Sr. and Owen Jr. Roblin are not recorded and some person has written that they were dead or that Owen Sr. had died, and Owen Jr. was still at Adolphustown whereas it was Owen the son of John Roblin at Adolphustown with a large family, as a little closer examination will show that Owen Roblin Jr. was only married in 1794 and without a family.

Further proof that Owen Roblin Sr. was not deceased —

OWEN ROBLIN — A Crown Pat. on May 7th, 1802 for Lot No. 24, 1st Con. S.W.G.P. and on July 10th,

1804 the above said lot No. 24 was conveyed to one John Wood. (Pictou Registry Office.)

Rebecca Roblin, a daughter of Owen Roblin Sr. married John Wood and in conveying this lot 24 to his son-in-law and daughter confirms that Owen Roblin was alive at that time and no doubt spent his last days here.

Family of Owen Roblin Sr. wife unknown — issue

(a) Owen Roblin Jr. b. 1772 — m. Mary . . . (came in with his father) O-in-C, 1793.

(b) Rebecca Roblin, 1771-1855 at White Chapel Cem., married Oct. 27th, 1793 John Wood 1759-1843. (O-in-C) (June 20, 1797.)

(c) Mary Roblin b. . . m. Orser. It is reported Mary settled at Goderich and the family became wealthy. (O-in-C) (9th Nov. 1798.)

(b) Rebecca Roblin and John Wood had known issue of James and Peter Wood whose descendants still held this lot 24 in 1968. The farm ran along each side of the cross-roads north from Woodville — the name from the Wood family.

(a) Owen Roblin Jr. and wife Mary had a family which can be given later. He had the Crown Pat. for lot No. 31, Con. 1, S.W.G.P. and in 1806 sold this to Thomas Lyons and this Lyons family have it in 1968. One of his descendants has told us that Owen Roblin Jr. settled early first at Owen Sound with two of his sons by name of Phillip and George Roblin.

### Former Resident Against Hauling Away Sand Dunes

I have recently learned of the situation at the Sandbanks, whereby a cement company is hauling away the sand for commercial purposes, at a fee of \$1.00 per year, paid to the Ontario Government.

This is most disturbing to me, and immediate steps should be taken to have this action stopped immediately and for all time. The Sandbanks is one of the beauty spots of Prince Edward County, and I spent many enjoyable hours there in my youth, and I would like to think that the people of Prince Edward County, would like to have their children and their children's children enjoy the Sandbanks as they themselves have enjoyed them.

A group of public minded citizens should petition every person of Prince Edward County, including the children, and submit it to the Ontario Legislature, for immediate

action to have the removal of sand stopped, in order that the Sandbanks will continue to be a monument of beauty, that nature intended them to be. All levels of government in Prince Edward County should forward their protest in this regard.

If the people of Prince Edward County protest loud and long they will receive some attention. Now is the time to act, not tomorrow.

Should any group, prepare a petition in protest to the removal of sand from the Sandbanks, and forward it to me, I will gladly sign and return.

Dodds who has taken Memorial Service for many and fishermen at the for decorating the South

Church by Phil Dodds, one who spends many hours each year decorating the church and helping to organize the service. Phil also paid tribute to several deceased persons who, in one way or another, had marine interests.

Following are Phil's remarks:

"This is the 23rd Mariners' Service which has been held and in which I have participated. Twenty of them were held in Cherry Valley church, the first in 1929. After a lapse of 20 years, the services were revived and this is the third at South Bay Church.

"I think you will agree that it is an appropriate setting . . . in a church which this year is celebrating its Centennial, in the church which is adjacent to the Mariners' Memorial Park which was opened in 1967 and features the lighthouse which was brought from FALSE Duck Island where it sent out warning rays to mariners for a century. Its flashing rays remind us of the important role played by those in Prince Edward County in writing the marine history of Canada.

#### FAMOUS SERVICE

"Forty-three years ago, a God-fearing sailor, Capt. Nelson Palmatier returned to his home in Cherry Valley. He had attended a service for sailors in a port across the lake and suggested that one of God-speed for sailors and fishermen, be held in the early spring. The service became famous.

"During the war years, the services were featured by presentation of donations to the British War Victims' Fund. At these services individuals and organizations contributed around \$25,000 to this fund which was sent to help the heroic bombed people of Britain.

"But always at these services there was a Memorial Period when tribute was paid to those who had entered the Last Port. This list of Prince Edward County men and

names of sailors and fishermen have died since the last service are mentioned.

#### DECEASED SAILORS, FISHERMEN

"Although he was not a Prince Edward County native, we include in this list that of C. H. J. Snider, who died in Toronto, December 12 at age 91. A sailor as a youth, author of many books on marine history, and managing Editor of the Toronto Telegram for fifty years, Mr. Snider participated in fifteen of the services held at Cherry Valley. He joined then with others in paying tribute to those who had entered the Last Port and Haven of Rest, and now today, we pay tribute to his memory.

"Missing from the service this year is a well known personality in the person of Lindley B. Calnan, who died May 7. He was managing Editor of the Picton Gazette for 50 years. He served as a Lieutenant with the Fleet Air Arm of the Royal Navy during the First World War and a highlight of his experiences was witnessing the surrender of the German Navy in 1918.

"Others who have entered the Last Port this year are Frank Bongard of Cherry Valley, aged 91, on November 14, 1971. He sailed during schooner days.

"We also remember Percy Mattis of Consecon who died May 12. He was a longtime commercial fisherman.

There may be others and we will be pleased to be advised each year of names that should be included. Last year, we are sorry we omitted the name of Gerald Bongard who was a fisherman for some years at Point Traverse.

"These men, together with ALL deceased sailors and fishermen, we especially remember at this time."

## For Underwater To Be Launched

Mr. Ackerman has been undertaking tests of experimental explosives in the Arctic for breaking winter ice. The ice must be shattered in small pieces to permit the \$1.5 million submersible to be launched and to resurface safely.

He has also carried out tests on acoustic (under water detection) equipment including an underwater telephone.

Mr. Ackerman explained the difference between the use of the word "submersible" and of "submarine" was that a submarine was self-supporting while the submersibles require a support ship or airplane and they range in a limited area.

## Changes Announced In Farm Credit Rules

Agriculture Minister H. A. (Bud) Olson has announced that Bill C-5, to amend the Farm Credit Corporation Act, has received Royal Assent.

The changes will make it easier for certain farmers to borrow money from the corporation.

The amendments will also enable the corporation to carry out duties or functions that may be assigned to it under other agricultural programs such as the Small Farms Development Program.

The most significant changes for individual borrowers are:

- ◆ An increase in the loan ceiling for individual operators.
- ◆ Removal of the minimum age of 21 years as qualification for a loan.
- ◆ Restriction of loans to Canadian citizens or landed immigrants.

The loan limits for individual farmers, set in 1964, had created a problem for some farmers, particularly those attempting to improve their buildings, machinery and other facilities.

These limits were related to the number of farm operators, not to the size of the farm business.

The Act has been amended to provide for a maximum of \$100,000 to any farmer alone or jointly with others in a single farming operations.

The amount of loan will still be governed by the size and repayment capability of the individual farm.

At the same time, a farmer need

# Tracing The Roblin Family

21 June 1972

**EDITOR'S NOTE:** The following article is the first in a five-part series on the genealogy of the Roblin family, compiled and written by prominent county genealogist Loral R. Wannamaker. With the growing interest in genealogy in this area, largely because of the county's pioneer background, we are pleased to publish this series and trust many of our readers will find it of interest.

## PART 1

By C. LORAL R. WANAMAKER

"The Roblin family is extensively and favorably known in Upper Canada, especially in the Bay region. Although numerous, they have sprung from a common ancestry. Originally of English or Welsh nativity; at the commencement of the revolution in American they were found dwelling in both New York and New Jersey Provinces. As a result of the revolt, four branches of the Roblin family came into Upper Canada, two of whom, John and Stephen, were brothers.

**JOHN ROBLIN** lived in New Jersey. He took no part in the contest, but his sympathies were doubtless with the Loyalists. One day his home was raided, and during the ransacking, John was shot in the knee, and Stephen was suspended by the thumbs to a tree with a view of finding where the money was hidden. John Roblin was afterward placed into a rebel hospital and was so maltreated that he became a life long cripple."

We in our research have found a John Roblin on lot 25 W½ 1st. concession of Thurlow. He had small buildings and improvements. (Settlement of Upper Canada by Dr. Canniff, p. 666).

Ontario Archives — "I believe John Roblin was located on lot No. 25, Con. 1 of Thurlow as a loyalist. Unfortunately I have not been able to find any document in our holdings to substantiate this. Apparently, John Roblin died before letters patent were issued for lot No. 25. The Heir and Devisee Commission awarded the lot to John Roblin Jr. of Whitby "as eldest son and heir at law of John Roblin deceased, in July 1829. The lot was patented in his name on November 4th, 1829. The records of the Heirs and devisee Commission are extremely valuable as a source of information on individual families of settlers. Unfortunately, the file of John Roblin, Jr. known as claim No. 103 is missing. (A copy of a letter from Ontario Archives).

We find John Roblin and Sarah Snider both of Thurlow Township, being married 1816, and no doubt they were living on this land till it was made over to him as heir at law. I find a patent to John Roblin from the Crown dated November 4th, 1829 and on July 13th, 1831 he sold E½ to William Wallbridge and on July 15th, 1831 the W½ to John Dockstater. (Research at Registry office at Belleville).

We are aware some of the Roblin family in the past have used and been given John Roblin as their Loyalist U.E. Ancestor. This is not correct. Neith John Roblin or any of his children can be found petitioning for land as sons or daughters of a U.E. He does not appear to have joined the Royal Standard in America, so is not a Loyalist

U.E. May I say here that this John Roblin was my pioneer ancestor, and I would have been very pleased to have found him qualified for the mark of honor. We find his descendants have locately mostly in the Bay of Quinte area.

Dr. Canniff did not mention that John and his brother Stephen had a sister, and we find ANN Roblin who was the wife of Nicholas Wessels was their sister and Sarah Wessels, who married John Roblin, was a sister of Nicholas (Research by Dr. H. C. Burleigh at Albany, N.Y.)

**JOHN ROBLIN** the Pioneer b. . . . . d. 1793, married Sarah Wessels b. . . . d.

Their issue: John Roblin b. . . . -m- 1816 to Sarah Snider; Sarah Roblin b. . . -m- Jas. Wilson; Ann Roblin b. 1776-1872 -m- 1803 David Dulmage, 1780; Elizabeth Roblin b. . . -m- 1791 Seth Stevens; Rebecca Roblin b. . . -m- 1794 Garrett VanHorne, 1766; Owen Roblin b. . . -1852 -m- 1794 Mary Elizabeth Ruttan; Harriett Roblin b. 1783-1858 -m- 1805 (1) Absalom Loveless, (2) Jonathan Greely.

I. John Roblin is mentioned as from Whitby and being married in 1816, family not given.

II. Sarah Roblin and James Wilson — no marriage date.

III. Ann Roblin and David Dulmage had a family of 10 children (see Dulmage records by C.L.R.W.)

IV. Elizabeth Roblin and Seth Stevens — no record.

V. Rebecca Roblin and Garrett VanHorns — We believe they lived in Gore "B" Sophiasburgh. This land is still in VanHorn name and in a private cemetery we found two foot stones "G.V." and "R.V." which leads us to believe Garret and Rebecca are buried in this almost unknown spot.

VI. Owen Roblin and Mary Ruttan lived and died in Adolphustown. This Owen Roblin was known as "ONE EYED OWEN" having lost his eye in a hay mow in the dark from another fork. His will dated March 25th, 1852, his children are mentioned as — Jacob, Stephen, John, Rebecca, Mary, Margaret, Rachael, Ann, and Phebe Roblin. We also know he had two other sons as Owen and Phillip born 1812 and 1815 who were drowned December 2, 1827. His wife Mary was executrix with Samuel Hawley. The family settled around Picton, Adol-

phustown, Sophiasburgh, Tweed and Owen Sound.

VII. Harriett Roblin and Absalom Loveless. Harriett was my great-great grandmother which made a good reason to research the Roblin name. There are three Loveless men on the U.E. list as well as three Roblins, but the father of Harriett was not a U.E. nor was my Absalom a U.E., so I lost out in both cases.

SATURDAY, we joined the ranks of Past Presidents of the 45,000 member Ontario Horticultural Association, but it seems that it does not mean we will not be almost as active as we have been for the past year. There are invitations to many district meetings, anniversaries and other events; a chairmanship to investigate the possibility of having a Canadian Horticultural periodical published; writing and having published a history of the Horticultural Association, and as a member of the executive.

ALL OF US concerned with the convention were quite thrilled to learn attendance of 1,000 set a record and more societies than ever sent representatives. Having attended fifteen of them, we can say, forgetting local pride, that no other ran more smoothly or combined so well helpful information and entertainment.

PRINCE EDWARD APPLES came in for a big boost . . . we provided one thousand McIntosh through the local cold storage, and they were just 'like new'. George Spader of the Men's Garden Club of America (which sent 100 delegates) highly praised them as an expert. Prince Edward cheese and maple syrup were featured and Hershey Chocolate bars were donated for 800. There were nearly 300 packages of horticultural items distributed, 1500 Life Savers, 1000 Ontario emblem pins, plus many door prizes, and these also add to any meeting.

WEATHER was perfect, cool enough to be comfortable. The meals and banquets saw superb food served and the whole university staff, from Principal Dr. Deutsch and J. M. Brownlee down to the caretakers who could not do enough to help with arrangements, luggage, etc. Truly, this University is an ideal place for conventions. Sleeping accommodation, 800 in one building, the magnificent Grant hall for meetings, large cafeterias and banquet hall are unexcelled at any university. All seem so pleased it should not be long before the convention is held there again.

ONE CAN TELL when a meeting is going over well and the response of the huge crowd made our chairmanship easy. They were a relaxed, friendly group who, Dr. Deutsch told us, was unlike any such meeting he had ever attended and he

## Sail Past Planned

July 13-15 will be the dates of the Eastern Yachting Circuit Regatta, sponsored jointly by the Bay of Quinte Yacht Club and host Prince Edward Yacht Club.

Thursday, July 13, the long distance race starts at Kingston Yacht Club and ends at the Picton Club. Course racing takes place Friday in Picton Bay and final races will be run Saturday morning.

The annual Sail Past at the Club will be Saturday, June 24 at 2.30 p.m. The salute will be taken by Commodore Jack Cooper and Dr. Bob Clapp will lead the procession with the flag ship. Club members are asked to bring their own food and use the barbecues on the docks.

### LENORA CRASH

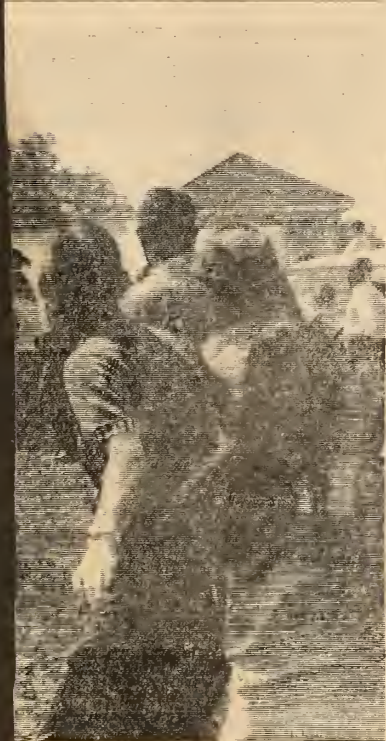

Elizabeth Vandenburg and her  
son Ron of Kingston were taken to  
Picton Hospital and later released  
as a result of an accident at Glen-  
ora Road half a mile east of Pic-  
ton. There was \$500 damage to the  
car. Investigating officer is Cons.  
Lennox of the OPP.

Early Monday morning Terry  
Neil Rand, 20 years, of R.R. 3,  
Picton following a chase by a po-  
lice cruiser crashed at the junction  
of County Roads 10 and 11 near the  
sandbanks. Terry suffered minor  
injuries and there was \$150 dam-  
age to his car.

Investigating Officer is Cons. Wil-  
iam Walby.

### BEWARE OF FOG

Fog is hazardous enough simply  
because you can't see what's a-  
head; but now some additional fog  
tricks have been discovered by re-  
searchers in England, the Ontario  
Safety League reports. Fog may  
actually make some drivers speed  
up — the worst possible reaction —  
because objects in fog may look  
twice as far away as they actually  
are. In fog a driver's subjective  
judgement of speed could be half  
his real speed.

to the church lawn for tea and a  
chance to chat with the people in  
attendance.

Officials of the U.E.L. Association  
branches were presented to the Mi-  
cheners. Included in these ranks  
was a busload of people from Tor-  
onto. Also on hand were James  
Taylor, MLA for Prince Edward-  
Lennox and Doug Alkenbrack, MP  
for Frontenac, Lennox and Adding-  
ton, who was also MP for the for-  
mer federal riding of Prince Ed-  
ward-Lennox.

Following the reception, a Can-  
adian Forces helicopter awaited  
Mr. and Mrs. Michener and to the  
goodbye waves of those watching,  
they left for Ottawa.

An interesting point to keep in  
mind is the recognition of Loyalists  
today. By a Crown Proclam-  
ation, the children of Loyalists and  
their descendants by either sex are  
distinguished by the letters U.E. af-  
ter their names, standing for the  
Unity of the Empire.

## County Hosts Conference On Industry

A three-day Economic and In-  
dustrial Development Training  
Course will be held in Picton Aug-  
ust 22-24, given by Prince Edward  
County in conjunction with the Min-  
istry of Industry and Tourism and  
the Department of Regional and  
Economic Expansion.

This course was designed to pro-  
vide formal training in industrial  
development practices and methods,  
enabling participants to assess their  
community's resources and to iden-  
tify and understand the influences  
that shape its present and future.  
It will provide a practical introduc-  
tion to the knowledge and skills re-  
quired for successful industrial de-  
velopment work.

Topics dealt with on the program  
will include: economic background  
for industrial development, the role  
of the community in industrial de-  
velopment, organization for indus-  
trial development, land, buildings  
and industrial parks, identifying  
types of industry, financing indus-  
trial development, internal promo-  
tion and industrial prospecting.

This is the first such course to  
be held in the area, and is expect-  
ed to attract a good number of  
people from the Quinte district and  
also from major developing cen-  
tres.

Due to a limitation of space and  
a desire to keep the course down to  
a level at which good communica-  
tion is possible, it was decided to  
limit enrolment to 40.

Registration fee of \$30 includes  
all course material, luncheons, din-  
ners and receptions.

## Pete's Point Rezoned For Development

Amcliasburgh township council  
passed a bylaw Tuesday evening  
which rezones Pete's Point for sum-  
mer cottage development. Jack Al-  
len who has been planning the de-  
velopment in the area since 1970  
has been held up by planners. With  
the council's bylaw, subject to ap-  
proval by the Ontario Municipal  
Board, Mr. Allen will be able to  
get the project underway.

### ENFORCEMENT OFFICER

Other business discussed includ-  
ed the councillors' endorsement of  
a resolution from county council  
which calls for an Enforcement Of-  
ficer for Prince Edward who would  
reside within the county.

### GARBAGE BOX

The council also decided to act on  
a petition received from cottage  
residents at the west end of Rob-  
lin Lake calling for a garbage box.  
Garbage is picked up in the area  
on Thursdays. When the garbage is  
left out from Sunday night to the  
time of the pickup, scavengers had  
often been active. It is expected the  
garbage box will solve this prob-  
lem.

## Apple Growers To Get Chance For July Vote

The Farm Products Marketing  
Board has announced that an ex-  
pression of opinion by apple pro-  
ducers on the continuance of the  
Commission will be conducted on  
July 12, at polls to be announced.  
This announcement reaffirms a com-  
mitment given when the establish-  
ment of the Commission was ap-  
proved in 1969 by The Hon. William  
A. Stewart, Minister of Agriculture  
and Food, that an expression of  
producer opinion would be sought  
in 1972 on the continuance of the  
Commission.

Lists of those eligible to vote will  
be posted in the county and district  
offices of the Ministry of Agricul-  
ture and Food from June 19 to June  
23 inclusive. Apple producers are in-  
vited to examine these lists to as-  
sure themselves that, if eligible,  
their names are included.

Growers who have paid a minimum  
of \$25 in license fees from the mar-  
keting of the 1969 or 1970 crops will  
be eligible to vote. These years are  
being used as the basis for determin-  
ing eligibility since the records for  
the 1971 crop are not yet available.  
Producers with existing plantings  
which, when in full production,  
would generate license fees of at  
least \$25 will, after making a declar-  
ation to this effect, be entitled to  
vote.

### RELATIVES FROM ENGLAND

WINNIPEG 1

November 18, 1965.

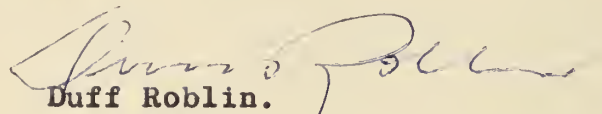

Dear Dr. Burleigh:

I do want to send you a word of thanks for your kindness in helping to work out the U. E. L. connection of my branch of the Roblin family. Both Mr. Wanamaker and Mr. Rowse have spoken very highly of your knowledge of historical and genealogical matters of the Bay of Quinte area.

Daniel Webster said: "The man who feels no sentiment of veneration for the memory of his forefathers is himself unworthy of kindred regard or remembrance." It is indeed a most valuable service that people with your interests and capabilities perform in keeping the rest of us aware of our heritage.

With kind regards,

Yours sincerely,

  
Duff Roblin.

Dear Doctor-

We, Mildred and Loral have been doing considerable work on the ROBLIN family this winter and when we have it a bit more complete we would like to have you go over it. At the moment we would like to know if "STEPHEN ROBLIN" had any children and we thought there may be some shown in the sons and dau's or in some other record you may have. We have that he died prior to 1823.

Hope to see you and Mrs Burleigh at the Picton Ont. meeting on Jan. 20th.

Yours Sincerely.

Dear Sir:-

For some time I have been trying to contact some one, some where who would know the Roblin History or could tell me where I could get it. Indirectly I got your address from Mrs. Morson who got one from you.

Now I am a descendent of Levi Roblin (my father's grandfather) who in

turn was a descendent of the original John Roblin who was a Dr. E. L. from New York State.

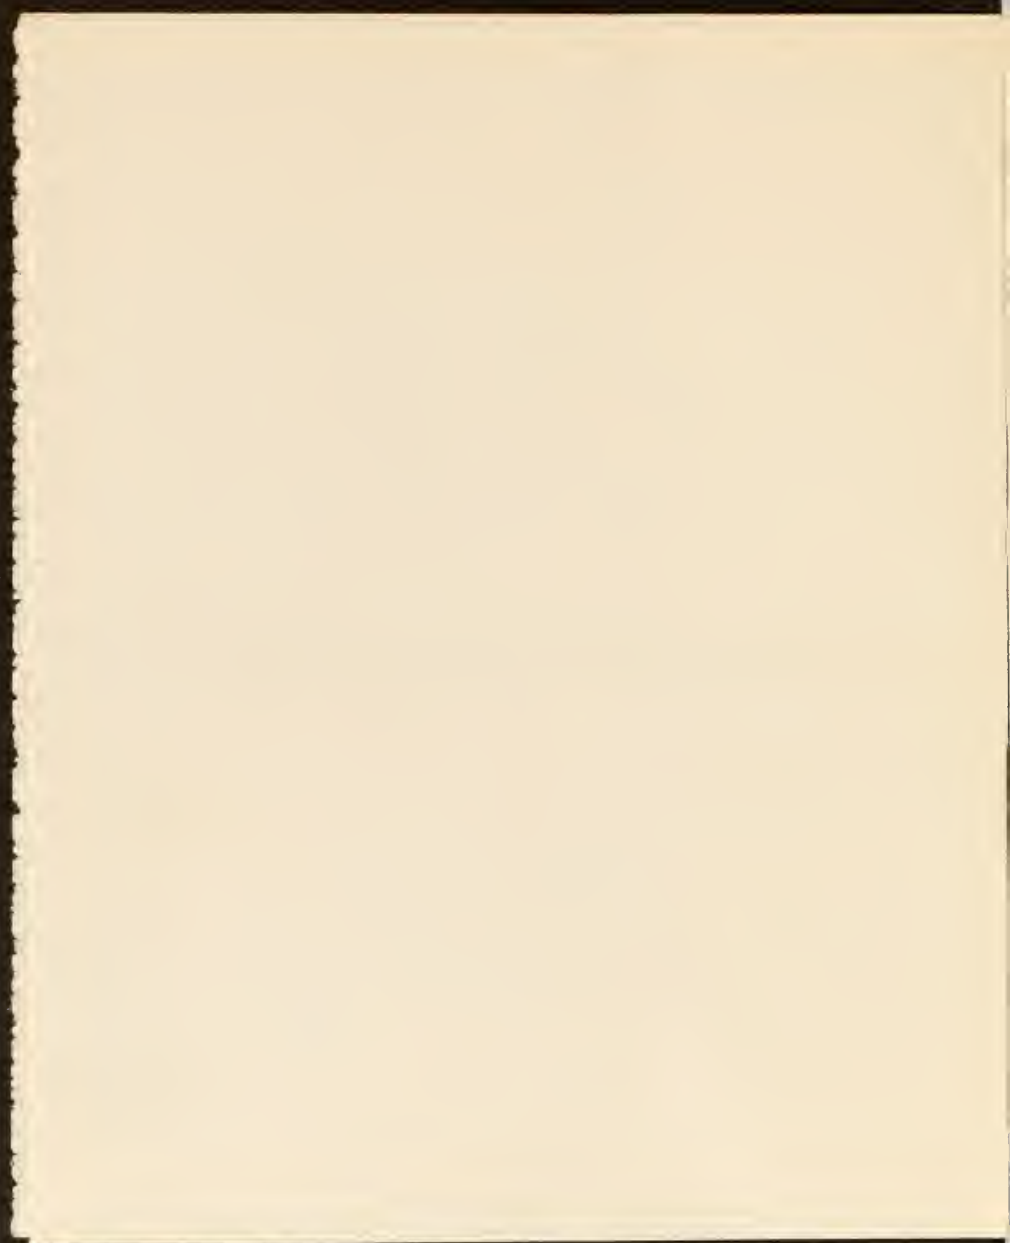

Now I would very much like to get the Roblin History if you have it or could tell me to whom I could write and also the fee charged for same.

Trusting you will be able to help me out.

I remain,

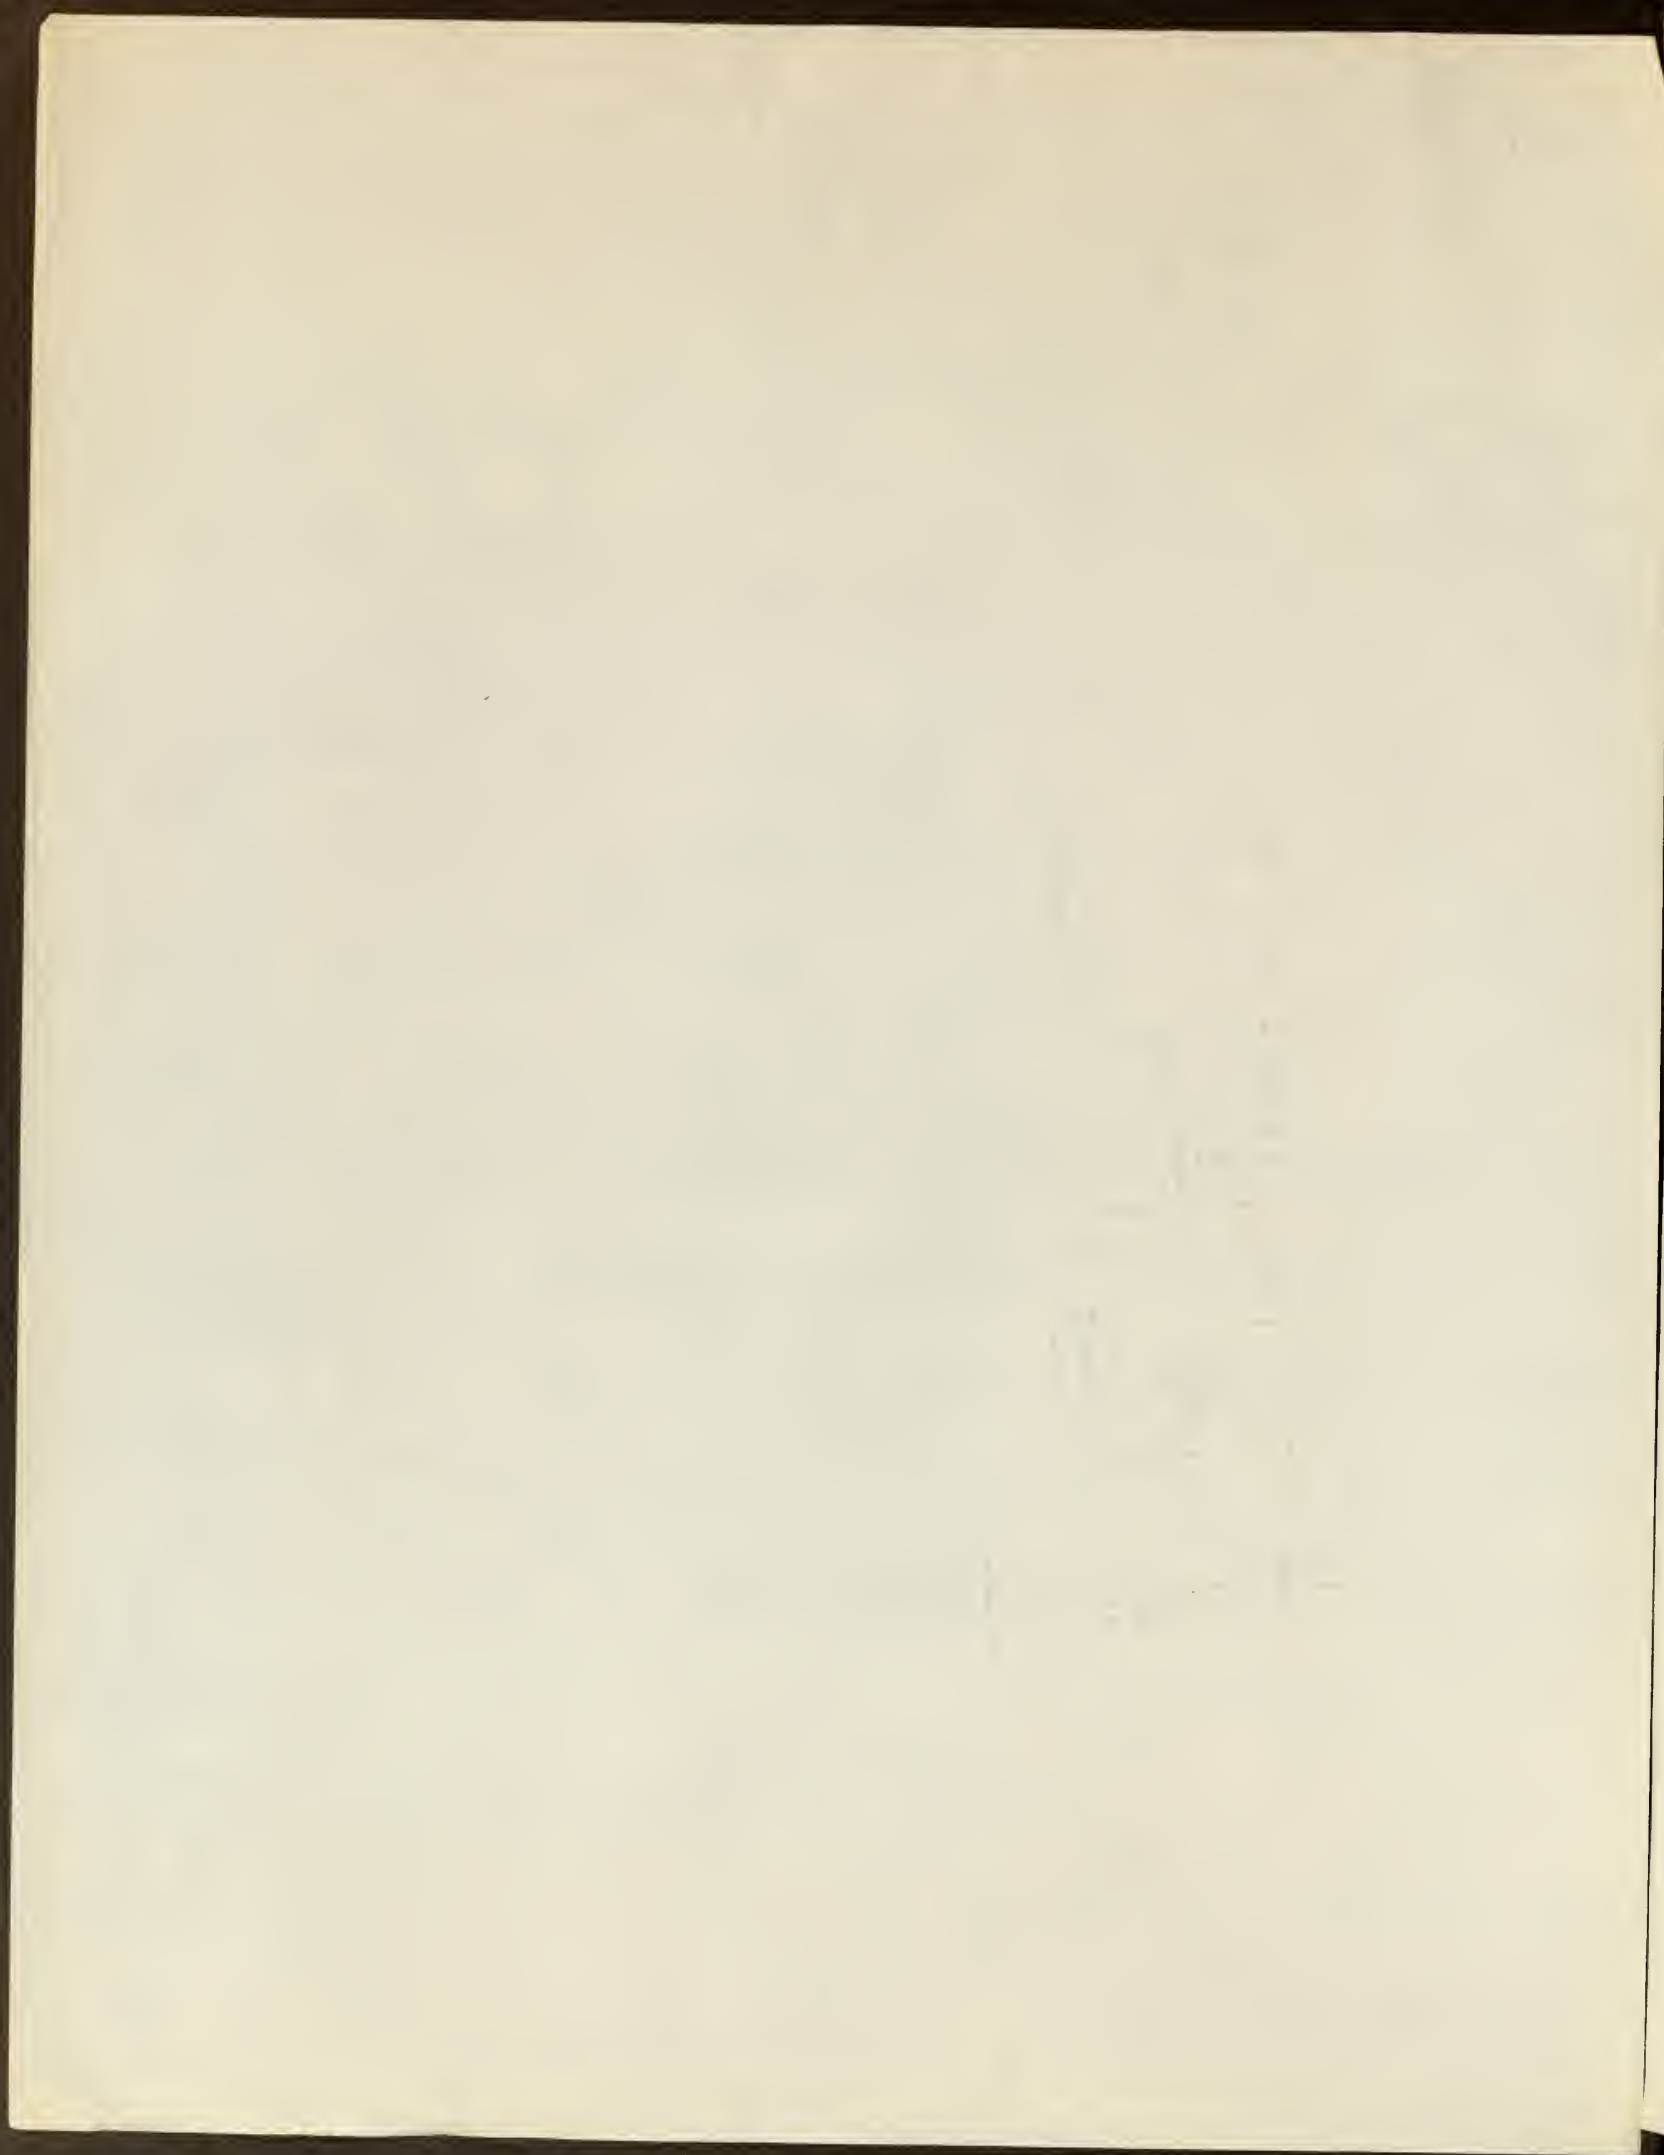

Yours truly,

Mrs Robert James Semple

Rev. Charles Higginson, of Richmond Hill United Church, assisted by Rev. Dr. M. C. Johnston, of Thornhill Baptist Church, conducted the funeral service in the Wright and Taylor Funeral Home, on Monday afternoon, May 2. Alan Frizzell, Robert Gordon, Elmer Irwin, Harvey Hogan, Freeman Coone and William Drinkwater acted as pall-bearers and interment was in St. John's Norway Cemetery, in Toronto.

The ancestry of Mr. Roblin, elder son of the late Mr. and Mrs. Jacob F. Roblin, Adolphustown, probably contained more United Empire Loyalist blood than that of any other person of his generation. The list of his ancestors included such well-known U.E.L. names as Owen and Stephen Roblin, Abraham, Peter and Joseph Ruttan, Benjamin Allison, Phoebe Davidson, William Carr, Peter Rose, Ernest Snyder and Solomon Huff, who donated the land on Hay Bay for the first Methodist Church in Upper Canada.

Prior to his marriage to Effa Stewart Alcombrack (also of U.E.L. extraction) in 1906, the late Edwin Roblin held a commission, first in the Royal Canadian Army and later in the American Army.

Mr. Roblin was well-known as a home-builder in Scarborough, Forest Hill Village, North Toronto and Richmond Hill. Formerly an active member of Fairlawn United Church in Toronto, he transferred his membership on retirement, to Richmond Hill United Church.

Surviving the late E. P. Roblin, Sr., are his widow, Effa Stewart Roblin; three sons, Rev. Alva S. Roblin, of Sudbury; William Theodore Roblin and Edwin P. Roblin, Jr., of Richmond Hill; one daughter, Mrs. Victor Shetler (Helen Dee), of Napanee; and a younger brother, A. Overton Roblin, of Ottawa. He was predeceased in 1916 by an infant daughter, Dora Mabel.

Dr. H. C. Burleigh,  
Bath, Ontario.

Dear Dr. Burleigh;

A few weeks ago I was down with some of my family to Adolphustown to the pioneer cemetery etc. of the United Empire Loyalists. While there we met Miss Edith M. Allison who very graciously talked with us and outlined something of the development of the U.E.L. memorial at Adolphustown. Needless to say as a descendent of the U.E.L. Roblins I am tremendously interested in all this.

Miss Allison, in a recent letter, informed me that she had passed on a donation of mine to you relative to my desire for as much history as possible about the Roblin family - and in particular following through my own branch. Miss Allison stated that you had the largest amount of material of anyone on the U.E.L's and our family.

Anything you could pass on to me would be greatly appreciated. I have some information but I am not sure whether or not it is reliable.

To give you a starting place: I was named after my father, Leander Roblin of Brighton, Ontario. He had two brothers: Jacob Roblin who had the blacksmith shop in Brighton and George Roblin who ran a hardware store there. My father was about sixty four when he died fifty eight years ago. This would make his birth about 1840. Perhaps this will give you some idea of where to start.

I will certainly be very happy to hear from you. From what Miss Allison said you have a great deal of authoritative material. I sincerely hope you will be able to get this into safe hands for the sake of the descendants of the U.E.L's of the years to come.

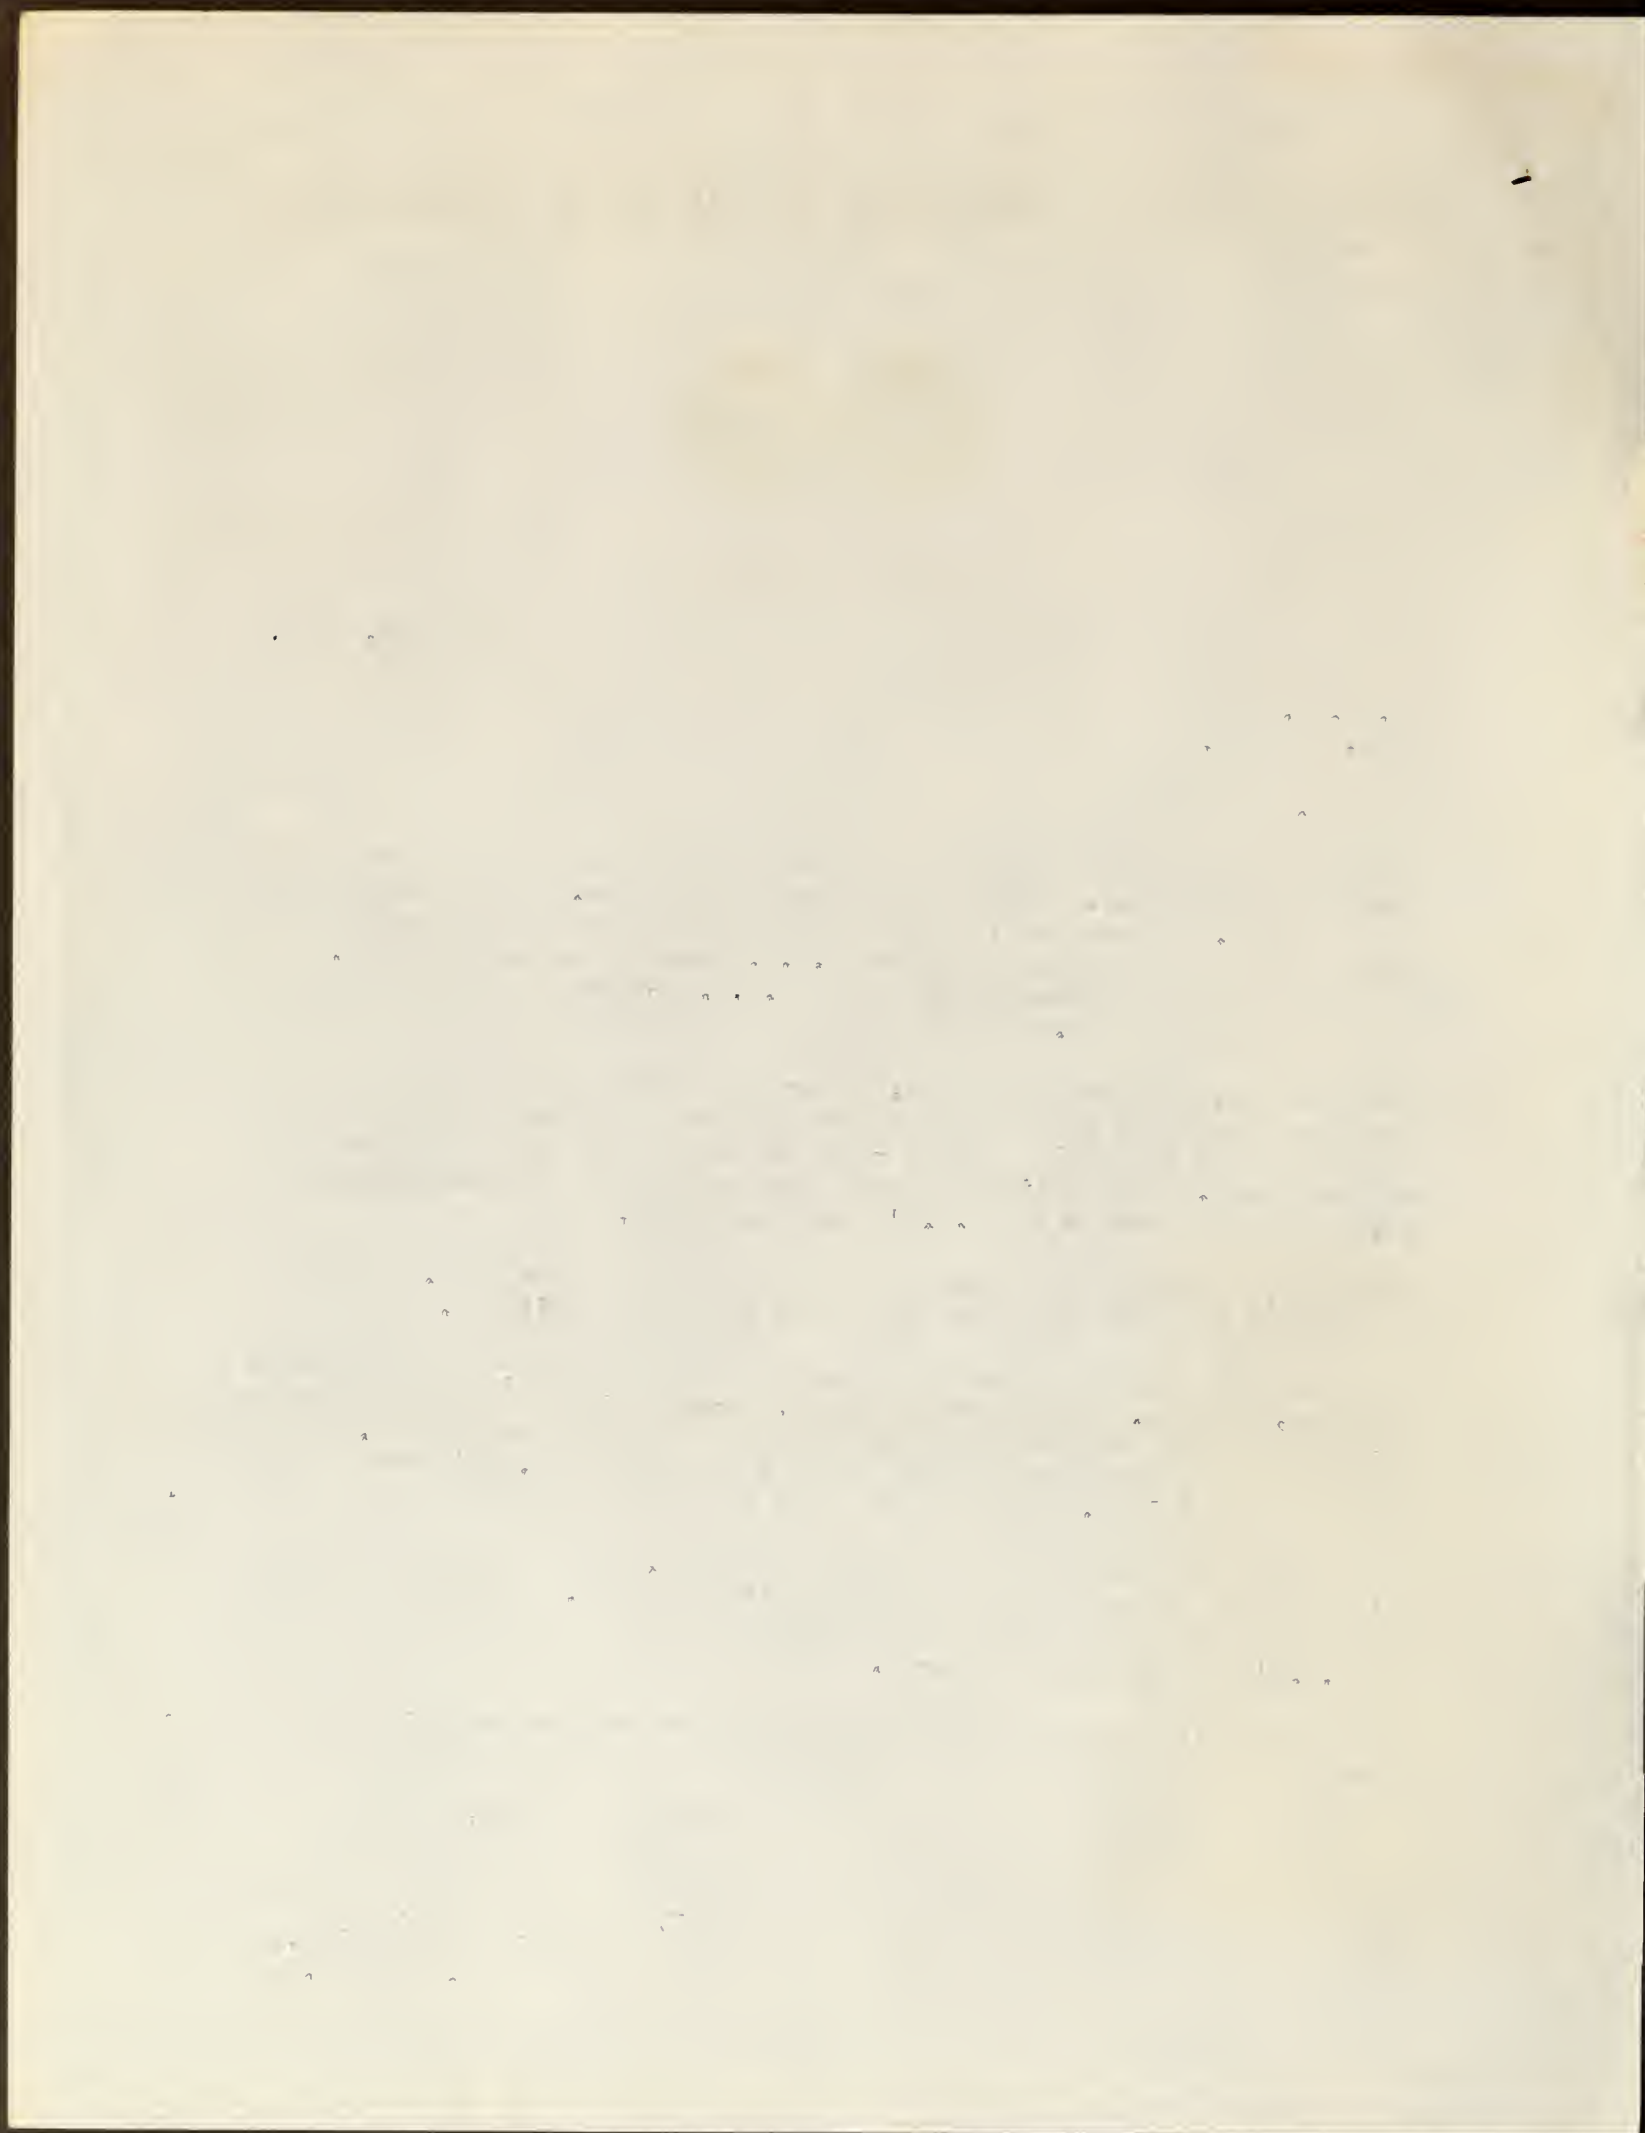

With every good wish and trusting this does not involve too much of your time, I am,

Sincerely yours,

*Leander Roblin*

Dear Dr. Burleigh:

I have often turned over in my mind your questions regarding the Roblin family, but it is only during a time like Christmas holidays that I get out my books and look things over.

The big problem originally seemed to be the identity of the "John Roblin" but I believe that can be settled. It seems to me quite definite that Philip Roblin and his wife Elizabeth Roblin (who may have been Elizabeth Moore) have been confused at times with the son John Roblin and his wife Mary Moore. Playter's History of Methodism mentions a Widow Roblin and four sons and four (five?) daughters, her husband having died in 1788. The husband, Philip, I would assume was the one who had been wounded or injured in the revolutionary wars. The same book speaks of her (eldest?) son John Roblin then a young man 17 years of age - this is under the date of 1791 which would mean he was born in 1774. This checks with the headstone in the U.E.-L. cemetery which states John Roblin died Feb 28, 1813 aged 38 years 9 months 26 days. This would bring his birth on May 2, 1774.

Philip & Elizabeth would seem to have had these children: John, Philip, Owen, David, Fanny, Nancy, Mary, Elizabeth and (Keziah?) Playter's book speaks of Losee and the Roblins, mentioning "4 daughters" as above, but there may have been 5.

The diary of George Hill detlor should be reliable information on the family of John Roblin if he married the daughter Maria. These would seem to be Maria, Nancy, Philip J. William M., John, Matilda, Jane, Frances and David.

You mentioned the Adolphustown census of 1794 as listing John Roblin, a wife and 1 child. If he was 17 in 1791 he was apparently married at 18 or 19 and from 1793-1813 had nine children which I suppose was not unusual, especially for those times when a family was an asset rather than a liability (?).

The Haldimand Papers, Sorel, 19 Nov., 1783, record Philip Roblin, wife, 1 male child over 10 etc. This checks a bit closely on John's age since he would be in his 10<sup>th</sup> year, but not yet fully 10 yrs old. We would be puzzled by the returns of Oct 5, 1784 which recorded Philip Roblin, wife, and 3 sons over 10 years of age even though I am not sure that John was the oldest son.

Playter's book speaks of John Roblin again on P. 24 wherein he was converted and among other things "He went to W<sup>m</sup> Moore's, a mile distant, and exhorted - " It was apparently W<sup>m</sup> Moore's daughter, Mary, whom he married in 1792 or 1793.

There has been doubt in mind as to whether the "Widow Roblin" who went to Sophiasburgh in 1817 was perhaps the widow of John Roblin, since she had been a widow from 1813. However I am reasonably satisfied that it was her mother-in-law, Elizabeth, who, with part of her family at least, made that move. If, when her son John was born in 1774, she had been - say 18 years old - then she was born about 1756 and by 1817 she was 61 years old. After all she did in Sophiasburgh the book of Pioneer Life states that "she subsequently married John Canniff the founder of Canniffston". The book does not say she helped in that founding and if it was subsequent by a number of years to her settling in Sophiasburgh then she must have been quite old.

Because of the repetition of names it is difficult to distinguish between the various people. From U.E. list of 1884 we find "Owen P" listed as the son of Owen Sr. whereas Philip's one son is listed as "Owen, jr." The book of Pioneer Life, which contains many errors so this may be another - lists

Owen P. as the son of Philip. Also from the Public Archives in Toronto under Philip Roblin there is son "Levi." This Levi was a son of Philip Roblin that settled with his mother in Sophiasburgh. In other words Levi was a grandson of the pioneer widow and the John Roblin who died in 1813 was his uncle. Levi's sister Elizabeth is also listed there - she married Joseph Foster of Camden East. Her Aunt Elizabeth had married Benjamin Clapp.

Regarding my mention of Owen P. I read in your letter that in the Upper Canada <sup>Land</sup> (Year) Book of 8 Feb 1816 is "Owen P Roblin brother of Philip who is now 41 yrs of age..." This would agree with Pioneer Life that Owen P. was the son of Pioneer Philip (and Elizabeth). This would bring his birth in 1775 which would make him one year younger than brother John.

Philip and Owen were two favorite first names in the Roblin family, and it is very difficult to distinguish between some of them at times. There must have been some generations where four or five "Owens" or "Philips" were living. The Pioneer Philip had a son Philip, son Philip had a son Philip, and this Philip had a son Philip. The Owens are even worse as the Pioneer Owen had a son Owen and Pioneer Philip had a son Owen P. and so it goes.

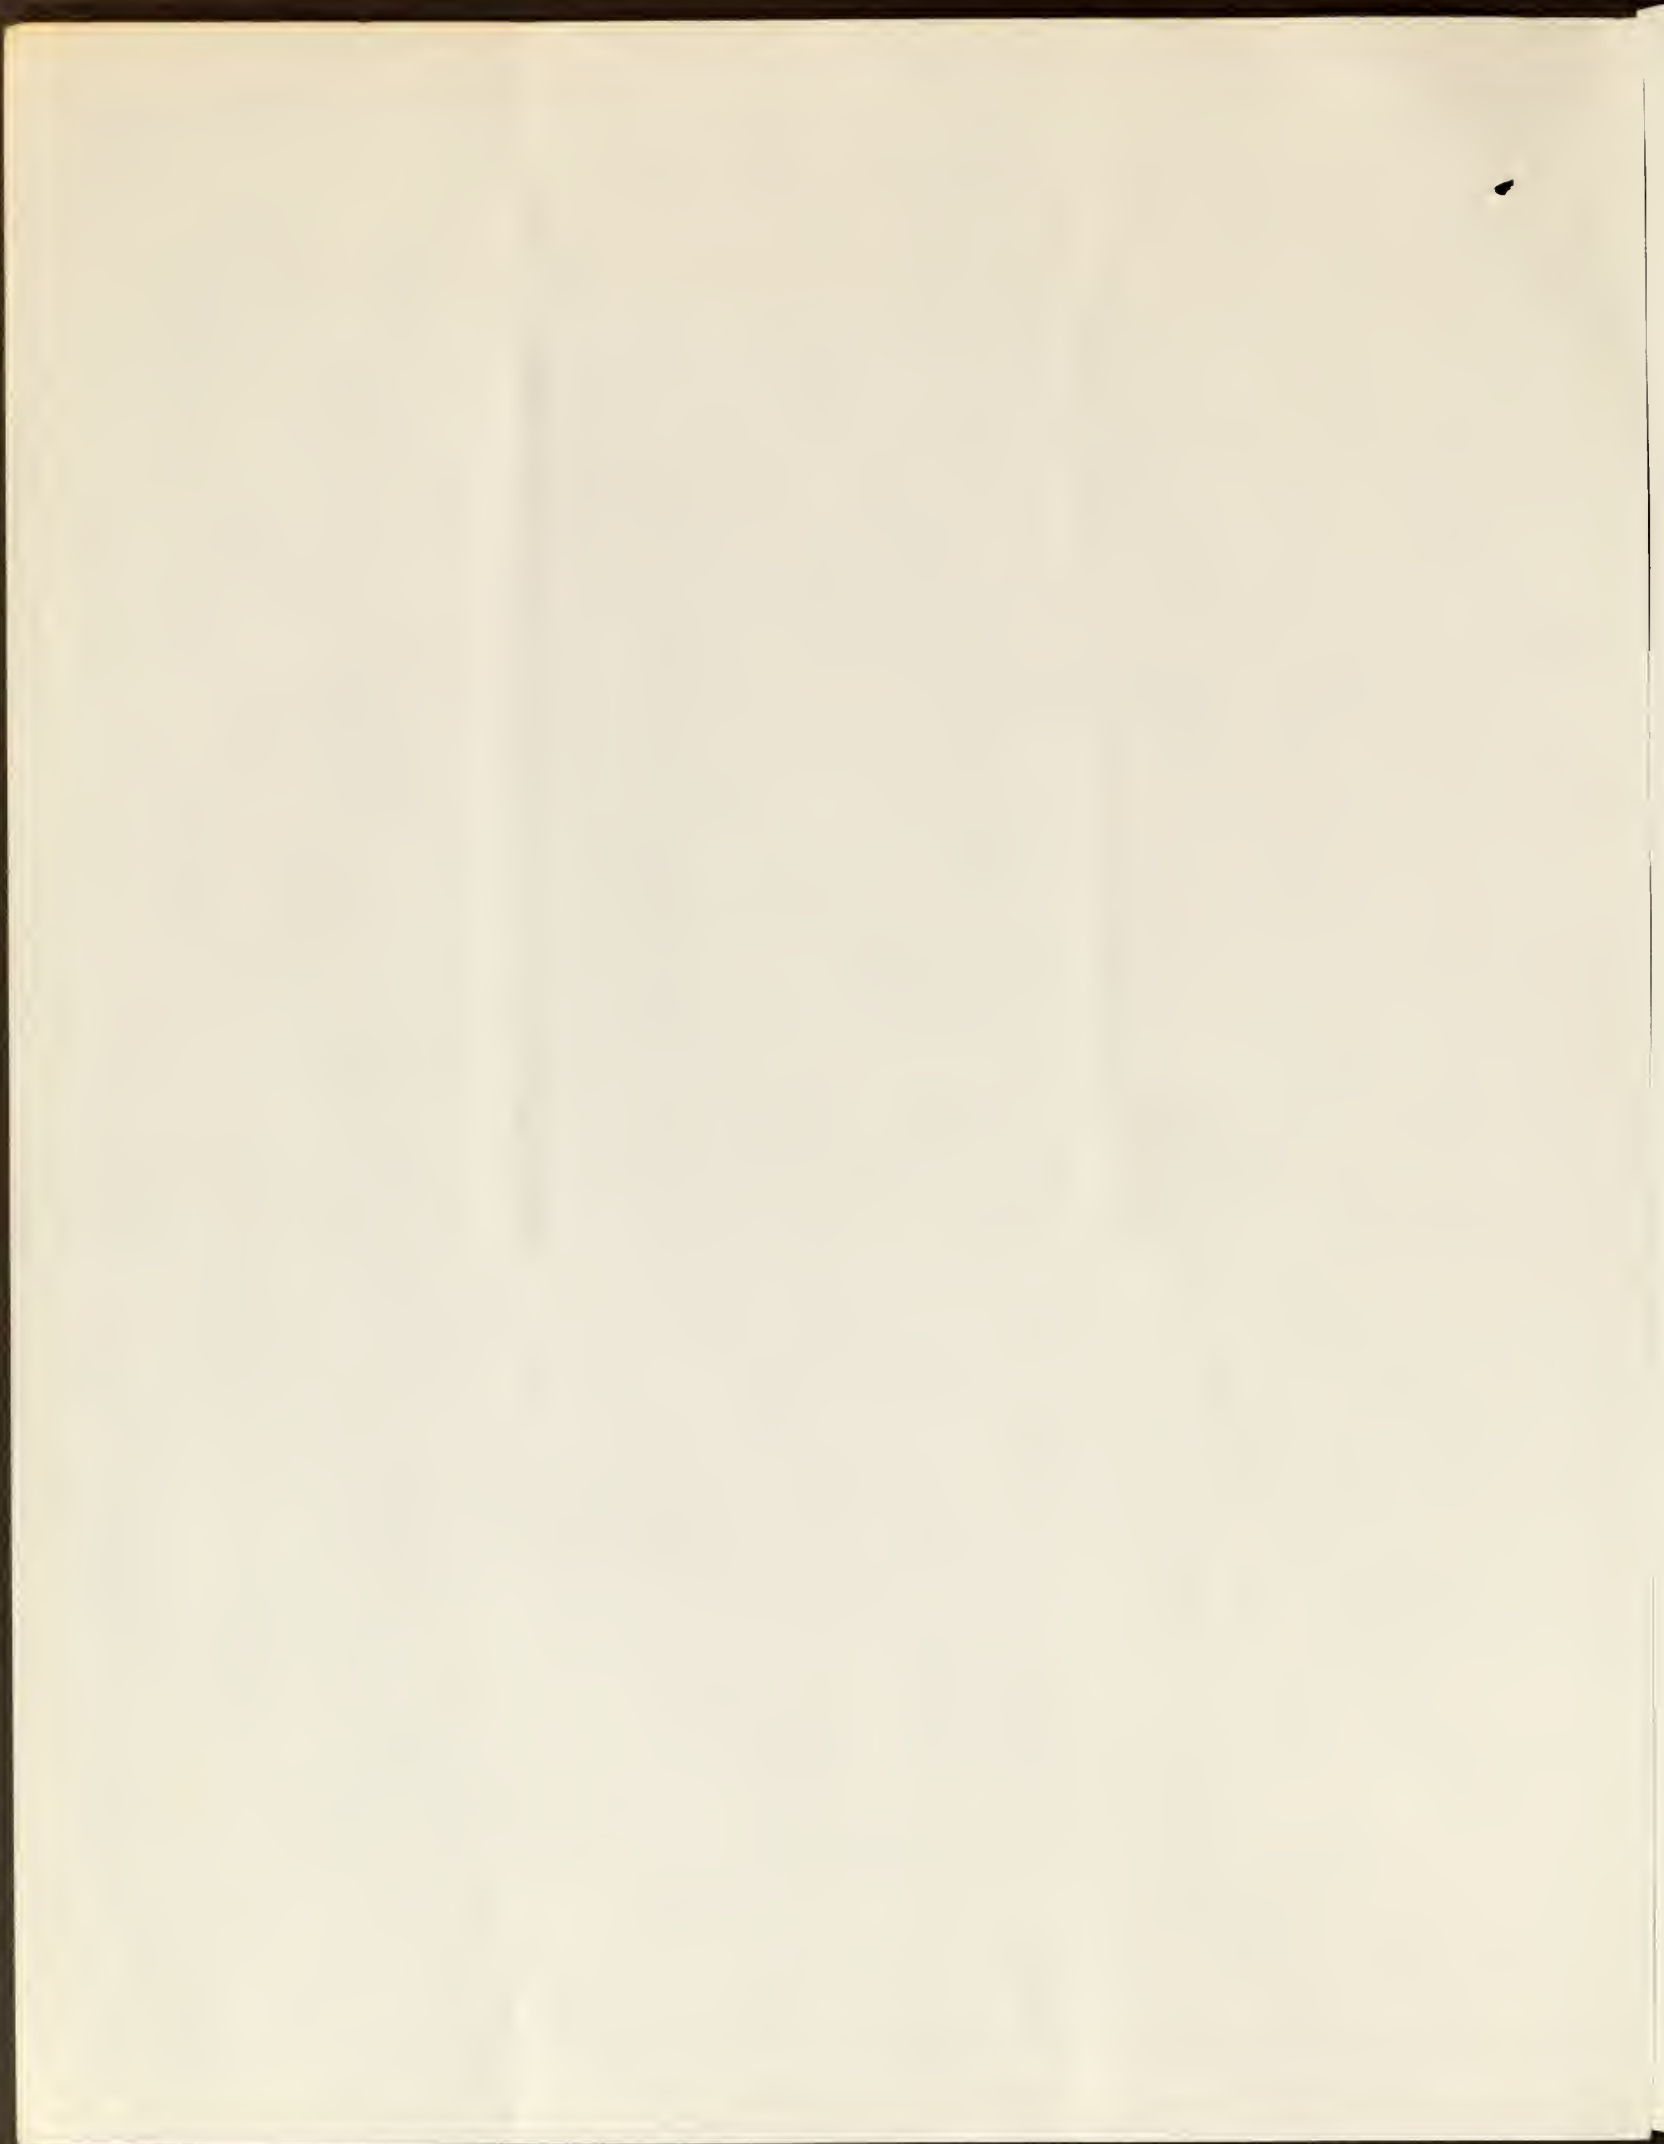

I believe Mr. Young made a genealogical outline of the Roblin family which I will not attempt to duplicate but I do hope I have separated the original Philip from his son John and his son Philip, at least a little bit.

With best wishes to you and yours for the New Year that you may have every health and happiness

Sincerely,

Gordon Osborne.

P.S. I believe Keziah Roblin, who married a Drury (or Drewry) was a daughter of Philip & Prudence and that Pioneer Philip had only 4 daughters as Playter's book states.

Dear Mr. Burleigh;

Your letter arrived on the 16th of December and I want to thank you for your trouble and the History of the Roblin Family.

Would you please reply to this as I would like to know if the Check arrived safely.

Would you like any History of any of the families from here, the reason I ask, is because the Head of the Geneology in Seattle has quite a lot of information of Canadians who formerly lived back there, would you like any help in this, please let me know.

Must close and a very Happy New Year to you and your staff.

Sincerely,

*Clara Morrow.*

Canada;

The Seattle Genealogical Society told me to write to you for  
the information I want;

I would like the History or information of the Family name of  
Roblin. Cousins in Bellville Ontario have traced my family back  
to a Levi Roblin born after 1800, the original Roblins came from  
England, settled in Rhode Island and then after the American  
Revolution went to Canada. Our Family were United Empire Loyalists.

The Roblins of Manitoba are distant but not close.

Also would like the history of John Potter born in Mountain  
View Ontario. His Father Samuel was born in the State of Conn.  
U.S.A. his wife name was Kassia.

Any help would be very much Appreciated. Any expense let me  
know.

Sincerely,
